CHASSIS & ELECTRICAL

BATTERY MAT

This mat absorbs acid. Made of super absorbent polypropylene needle punch felt, w/one side heat treated to give it additional strength. This fabric is slowly pressure-treated at high temperatures with a unique, all-natural neutralizing formula and then cured in ovens. Finally, the fabric is dipped in a latex sealant mixture, cured again in the ovens, and is printed.

M-96-BMAT each5.95

BODY MOUNTING, AIR COND., DASH PARTS

ADHESIVE BACKED BODY TO FRAME WEBBING

This is a special body to frame cushion with pressure sensitive adhesive on the back. Just peel & stick. 20 ft x 2" wide.

- B-9023-112 each**26.95
20 ft x 2" wide x 1/8" thick
- B-9023-2 each**28.95

FOIL NOISE AND HEAT INSULATION MATERIAL

Reflective foil insulation consists of two layers of polyethylene bubble film sandwiched between two layers of 99.9% pure aluminum foil, making a structure 5/16" thick. Temperature range: -60°F to 180°F. Works great for insulating firewalls, headliners, floor pans, trunk area, door panels, kick panels, rumble seat area, etc. Cut and form into needed shapes using scissors and contact cement or weatherstrip adhesive. 48"W x 72"L x 5/16"T.

- B-9023-S each**29.95

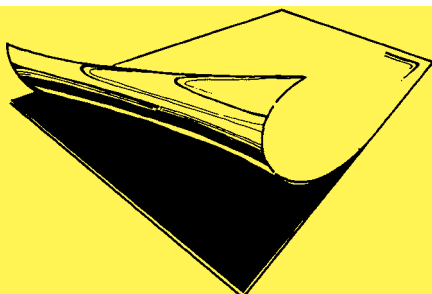

BODY INSULATION SHEETING

Tar coated sound deadening sheet. 3 ft. wide by 8" long x 1/16" thick.

- B-9023-F30 each**7.95

Nancy keeps our office under control with a smiling face!

ADHESIVE BACKED FOIL INSULATION SHEETING

Heat resistant & water proof. Sound deadening material installs under any place on the car (headliner, body, door panels, floor, deck lid, trunk, firewall etc.). This is a must for a restoration project that should be done right! Layered foil dampening pad with an adhesive side for easy and quick installation. No other adhesive required. 32" x 54" sheet.

- B-9023-FSS each**29.95

BODY MOUNTING SHIM

Cushion steel shim. (1" hole centered & one 7/8" wide slot in one end).

CARPET

**THE BEST
MONEY CAN BUY!**

AUTHENTIC MOULDED CARPET

Our carpet is moulded to the original factory specifications. It is made of 80/20 rayon/nylon loop (the best in quality!) Listed below are the most popular colors available which should satisfy the needs of 99% of all trucks. We do want to inform you that we can special order almost any color of your choice that might not be installed. All special order items must be pre-paid. Please allow 10-12 days for delivery.

Carpet details:

- Backing Material (To offer soft, thick cushion effect for comfort as well as appearance. Optional on some sets.)
- Serged edges (Nylon thread or vinyl is used depending on the original style. Prevents fraying and separation from moulding)
- Dimmer switch cutout (Not available for some sets due to difficulty in accurate placement)
- 4 speed cutout (Where applicable)
- Contoured fit over transmission tunnel (Eliminate bulges and wrinkles)

Basic colors available:

- Red • Medium Blue • Emberglow • #13 Blue • Oxblood • Bright Blue • Maroon
- Dark Blue • Teal • Black • Moss Green • Ivy Gold • Silver • Dark Brown • Gold
- Dark Saddle • Light Saddle • Aqua • Sandlewood

When ordering you MUST include the following information:

1. Year
2. Automatic or standard transmission
3. 2WD or 4WD
4. Column or floor shift
5. Bench or bucket seats
6. Console?
7. Color

**Please read
THOROUGHLY
prior to ordering!**

CUSTOM EMBROIDERED FLOOR MATS

These mats are made to be installed on top of the carpet stock with the same care and attention to detail as our moulded carpet sets. The bottoms are made of durable, pliable synthetic material that has ribs formed in it to grip the main carpet set to eliminate slipping. We have a wide variety of embroidered logos available. All sets are sold in stock 2 piece sets. Some are available in 4 piece sets for Extended Cab Pickups, Blazers & Suburbans. Please note these are special order and must be paid for in advance. Allow 10-14 days for delivery.

Listed below are available mat colors in 80/20 rayon nylon loop just like the original carpet sets. There are two colors listed: 1st color being the carpet and the 2nd color being the emblem.

Colors available:

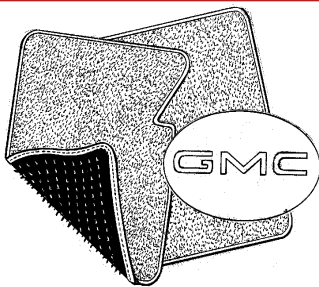

- Black/ Red
- Emberglow/ Ivy Gold
- Dark Green/ Medium Blue
- Aqua/ Dark Blue
- Dark Brown/ Light Saddle
- Dark Saddle/ Maroon
- Moss Green/ Teal
- Silver/ Sandlwood
- Gold/ Baby Blue
- #13 Blue/ Bright Blue

**Please
read
before
ordering!**

If you are unsure of your carpet color, please send us a clean 3 x 3" sample and we will match it for you!

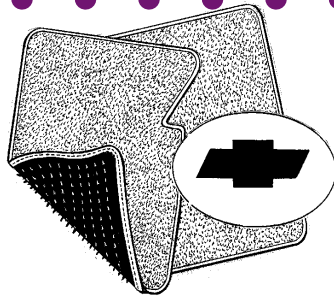

When ordering you MUST include the following information:

DOOR ANTI-RATTLER KIT

These are the super kits. Each kit includes all the felt pieces above, around and on the sides of the door, the u-shaped felt, all necessary installation clips and or staples. All kits include items for both doors. Each application may vary. This simplifies buying several different pieces into one easy purchase so you save money! Includes upper glass runs - along front and back of glass, inner and outer rubber window seals along bottom of window. Note: 1 kit does both doors.

BUCKET SEAT COVER

Made with madrid grain vinyl, features a repeating pattern of dielectrically heat sealed vertical pleats which resemble double stitch bar seams. There is also a center fold-down arm rest cover which has a design that is very similar to the bucket seat design. One set does both seats. 1967-68 Pickup (Aqua)

TECHNALON® CUSTOM FIT CAR COVER

The best money can buy!

These covers are made of technalon. It is simply nothing but the best! These are the most rain resistant "breathable" car covers on the market. They are made from a triple fabric. They are a high-tech three layer fabric, lightweight and pliable in all weather conditions. They don't smell, rot or mildew. The outside and inside cover are made of long fibers which make the fabric very tough but soft and non-abrasive. The middle layer is made of shorter fibers that catch water but still allow air to circulate. These covers have double stitched seams and neoprene elastic sewn into the hems at front and rear for a snug, perfect custom fit! They come equipped with non-scratch plastic grommets reinforced into the lower sides, which will accommodate the tie down rope, which is also included with the covers. This is an inexpensive investment for a valuable paint job! Specify blue, gray, or tan.

ONE PIECE SIDE GLASS CONVERSION KIT

Eliminate your trucks vent windows! Kit includes all felt channels, custom scraper set, filler panels, brackets, and hardware to complete 2 doors. Requires one hole to be drilled in the door jam area at the front of the door and one small bracket to be cut. Best to use with original complete doors, as there are usually fitting problems with reproduction doors.

SPINDLES & DROP KITS

Early Classic offers the original 1960-72 Drop and Stock Height Spindles, machined to accept your truck's original tie rods and ball joints. While others offer later model parts that require changing your suspension components in order for them to fit, ever EC Spindle is designed for your specific year and model of truck.

Dropped Spindles acheive their lowered stance by relocating the spindle pin higher in the casting, which in turn, lower the vehicle by an equal amount. The stock spring and shock absorber travel remain untouched, leaving the factor suspension geometry intact.

Gone are the harsh ride and alignment problems common with other forms of lowering. EC Drop Spindles are engineered to lower your truck 2.5", allowing the maximum amount of front wheel backspacing on the market !

Part #	Application	Description	Price

COMPLETE DROP KITS

These are complete kits with everything needed to lower your truck. We will list indivudal pieces with each kit.

1963-72 C10 2/4 DROP KIT

- 2" Drop Front Coils
- 4" Drop Rear Coils
- 4 KYB Shocks
- 24DK kit..... 399.00

1963-72 C10 4/6 DROP KIT

- 2.5" Drop Front Coils
- 1.5" Drop Front Springs
- 6" Drop Rear Coils
- 4 KYB Shocks
- Shock Mount Relocator Kit
- Super Track Bar Kit
- 46DK kit..... 849.00

1963-72 C10 PREMIUM 2/4 DROP KIT

- 2" Drop Front Coils
- 4" Drop Rear Coils
- 4 KYB SHocks
- Shock Mount Relocator Kit
- Adjustable Panhard Bar
- 24PDK kit..... 559.00

1953-72 C10 4/6 DROP KIT WITH DISC BRAKE CONVERSION KIT

- 2.5" Drop Front Coils
- 1.5" Drop Front Springs
- 6" Drop Rear Coils
- 4 KYB SHocks
- Shock Mount Relocator Kit
- Call for details
- 46DDBK5 (5 lug) kit..... 1449.00
- 46DDBK6 (6 lug) kit..... 1449.00

DROP DEFINITIONS:

2/4 = Drop 2" in front & 4" in rear
4/6 = Drop 4" in front & 6" in rear

PACKAGE SOLUTIONS

The Auto Meter Collection of Street Rod gauges was introduced to accent the class and artistic beauty found within a street rod interior. A large variety of dial faces and bezel combinations are accented by a high class numbering style, to give your street rod the look of true American performance. Your car is an original, shouldn't your gauges be too ?

Convenient 5 Instrument Kit

Includes everything you need to get your show on the road.

Programmable

Electric speedometer includes LCD odometer with trip function, and revolutionary "push button" calibration for easy tire size and gear ratio changes.

Upgrade your Street Rod Kit with a quality matching Tachometer and Clock. The clock is an extremely attractive accessory that will compliment any custom interior. Round off the complete set with either a 2-1/16" tachometer, or a 3-1/8" tachometer. Each instrument gives the high performance look desired by the industry's top builders.

These kits make it easy to pretty up your ride. Choose from the following collections from Autometer®.

- American Platinum
- Antique Beige
- Golden Oldies
- Arctic White
- Designer Black
- Old Tyme White
- Old Tyme Black

We have other gauges available. Call for more details !

Range:

120 MPH speedo, 100 PSI oil pressure, 100°-250° F water temp, 8-18V voltmeter, & 240ΩE/33ΩF fuel level. Includes mounting hardware, lighting & all gauge senders. Speedometer sender may be needed.

Valve Covers

Our polished aluminum valve covers are made to draw attention to your engine compartment. Choose from one of the many styles for small block Chevy™ applications. All designs are available in both short and tall heights and accept a 1-1/4" breather. Center bolt styles are available in short only.

Use tall styles if using roller rockers or stud girdles. Metal baffles are included with all valve covers. Don't forget to check out the matching air cleaners and breathers to complete your engine design.

SMALL BLOCK

ROUND AIR CLEANERS

Our round air cleaners are available in 6-3/8" and 10" diameters. Lifetime K&N air filter included with 6-3/8" air cleaner. The 10" diameter air cleaner has a common replaceable element available at any auto parts store. Both are 3" in height.

POWER STEERING BRACKET & PULLEY

For use with Chevy™ Small block motors with GM remote Type II power steering pumps. Designed to work with Billet Specialties pulleys and brackets - available for both long and short style water pumps. Both the bracket and pulley are machined from billet aluminum and given a high polished finish. Bracket mounts low on driver side of engine block. NOTE: Fittings, Hoses and Pump NOT included.

12120 (short water pump) 149.95

12220 (long water pump)149.95

A/C COMPRESSOR COVER

The cover is machined from billet aluminum designed to fit the Sanden 508 aftermarket compressor unit.

8712039.95

POWER STEERING REMOTE RESERVOIRS

Our power steering remote reservoirs are machined from billet aluminum and given a high polished finish. The remote reservoir features a vented cap and internal baffling for foam free operation. Designed for -6 & -10 AN fittings (works with most aftermarket hose kits). The included mounting bracket features an internal key-lock design that hides all mounting hardware for a smooth finish. *Fittings and hoses not included.

77920 (Ribbed Style) 134.95

77910 (Smooth Style)134.95

ALTERNATOR PULLEYS

Choose from either the replacement billet alternator pulley or the unique alternator fan, pulley, and nose cone set-up. The alternator pulley and fan are machined from one piece of billet aluminum to provide superior balance and strength. The bolt-on nose cone hides the alternator fan nut and washer. Both styles fit most GM, Delco and Ford® alternators.

85120 Alternator pulley 24.95

85220 Alternator set-up49.95

Press on 2 groove

Press on 1 groove

POWER STEERING PULLEY

Machined from 6061-T6 billet aluminum and polished to a mirror finish these power steering pulleys are designed to work with GM power steering pumps. Available in either 1/8" keyway or press-on shaft styles. Keyway pulley works with both long or short water pump applications. Press-on pulleys are for long water pumps only.

86120 (1/8" Keyway) 59.95

86420 1 Groove press-on 59.95

86520 2 Groove press-on64.95

Billet Serpentine Alternator Pulley and Nose Cone

The design features pulley & fan machined from one solid piece of billet aluminum for maximum strength and balance with a bolt-on nose cone to hide the alternator fan nut and washer. Designed to fit 6-groove serpentine belt systems with GM Large or Small case alternators.

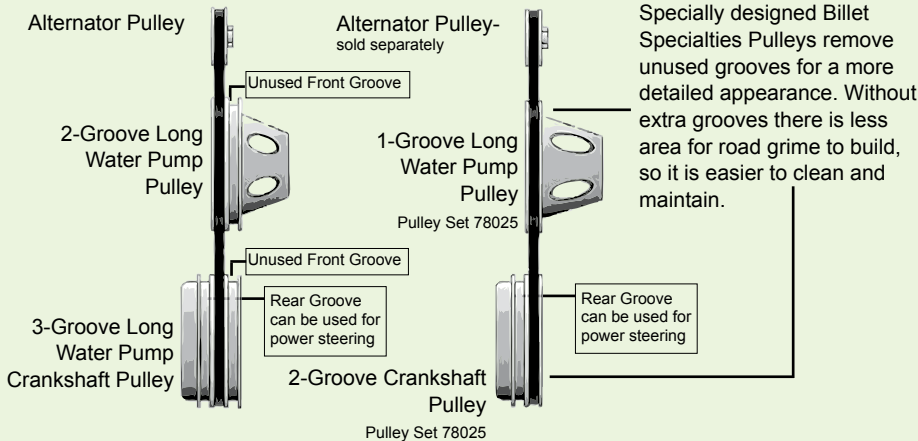

878830 59.95

The Billet Specialties Difference

Pulley Set 78025

Use Billet Specialties Pulley Set 78025 when running Billet Specialties Long Water Pump Alternator Brackets (11220 or 11420) without A/C.

Conventional Pulley VS. Billet Specialties Pulley Set 78025

PCV VALVE

The PCV valve is designed to be used with Billet Specialties and O.E. valve covers. When using O.E. valve covers, factory grommet must be used. The grommet is included for Billet Specialties applications. Uses common replaceable PCV valve inside.

22120 Polished24.95

VALVE COVER HOLD DOWNS

Valve cover hold downs work with both big block and small block engines. Each hold down is 2-7/8" tall with 1/4-20 threaded stud. Sold in packs of 4 only.

CRANKSHAFT PULLEYS

Long or Short Water Pump - Crankshaft pulleys are machined from billet aluminum and fully polished. Available for small and big block Chevy™ applications with either a long or short water pump.

3 Groove

2 Groove

Single Groove

2 Groove

3 Groove

Single Groove

The benefit of a billet aluminum pulley over a cast pulley is equal density. With a cast pulley the aluminum is poured into a mold and then allowed to cool. This process can create variations in density throughout the pulley. Dense areas are heavier than the more porous areas causing the pulley to vibrate at high RPMs. A billet pulley is equally dense throughout; equal weight translates to a more true and balanced pulley drive system.

BILLET DISTRIBUTOR CLAMP

For small block and big block Chevy™ motors.

65920 Distributor Clamp 21.95

Interior Accessories

BILLET DOOR LOCK KNOBS

Machined from billet aluminum with 10-24 threads. Universal application. Smooth head or Ribbed. Sold per pair only

- 45910 Smooth 19.95
- 45920 Ribbed 19.95

BILLET ALUMINUM LIGHTERS

Fully functional with polished finish, available in two sizes which cover most domestic vehicles.

Short Lighters

- 264120 Smooth 14.95
- 264122 Ribbed 14.95
- 264123 Smooth Flame 14.95
- 264128 Ribbed Flame 14.95

Long Lighters

- 264220 Smooth 14.95
- 264222 Ribbed 14.95
- 264223 Smooth Flame 14.95
- 264228 Ribbed Flame 14.95

Shift pattern

Two Sizes!!
Four Styles!!

MANUAL SHIFT KNOBS

Available in two thread sizes and four styles. These billet knobs will fit shifters with either 3/8" -16 or 10 mm x 1.5 threads.

10 mm x 1.5 Knobs

- 265120 Shift pattern 24.95
- 265122 Bowtie 24.95
- 265220 Shift pattern ribbed 29.95
- 265220 Bowtie ribbed 29.95

3/8" - 16

- 265230 Plain 24.95
- 265232 Bowtie 29.95

BILLET BEZEL A/C VENT

Billet aluminum bezel with black plastic vent louvers. Fully adjustable, attaches to 2-1/2" round flexible hose. Dash opening should be 2-1/2" in diameter.

- 38110 21.95

Mirror Head Dimensions

- Round 3-1/8" Dia
- Sm. Rectangle 1-3/4" x 4"
- Lg. Rectangle 1-3/4" x 5-1/4"
- Oval 2-5/16" x 4-3/16"

BILLET MIRROR HEADS

The mirrors are machined from billet aluminum and feature a stainless steel swivel supported by nylon inserts which provide smooth accurate adjustments that stay in position and look great while doing it.

- 73120 Round 34.95
- 73320 Sm. Rectangle 39.95
- 73420 Lg. Rectangle 44.95
- 73520 Oval 49.95

door handle

window crank

vent window crank

BILLET DOOR HANDLES & WINDOW CRANKS

Fully adjustable and easy to use: mount the spine on the regulator, slide on the aluminum cover, align the arm, tighten, and snap on the dome cover. Available in polished finish only. Sold by the pair.

Billet Door Handles

- 45520 GM '49 & up 59.95

Billet Window Cranks

- 46520 GM '49 & up 59.95

Billet Vent Window Cranks

- 47520 GM '49 & up 59.95

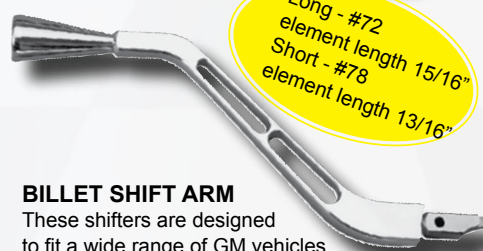

Classic Vintage Smooth

BILLET DASH KNOBS

Universal fit, with a 3/16" bore and set screw. Polished finish only. Sold per knob.

- 26001 Vintage 8.95
- 26002 Classic 8.95
- 26003 Smooth 8.95

Long - #72
element length 15/16"
Short - #78
element length 13/16"

BILLET SHIFT ARM

These shifters are designed to fit a wide range of GM vehicles (except Van column) Easy installation.

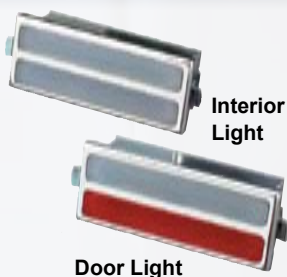

- 267320 '69-94 Pass 69.95
- '73-94 Truck 69.95
- 269520 '95-98 All 69.95

- 72725 Bent Arm RH 24.95

BILLET INTERIOR & DOOR LIGHTS

Designed for use in door panels, consoles and headliners. The interior and Door lights provide ample light for both RH & LH sides. Polished Finish. 1-1/2" H x 3-5/8" L x 2" D

- 60120 Interior Light 34.95
- 60220 Door Light 34.95

ELLIPTICAL 3RD BRAKE LIGHT

Our elliptical 3rd brake light can be molded right into the body. The extra bright lens is wrapped in a polished billet aluminum housing for a secure precision fit.

- 62520 54.95

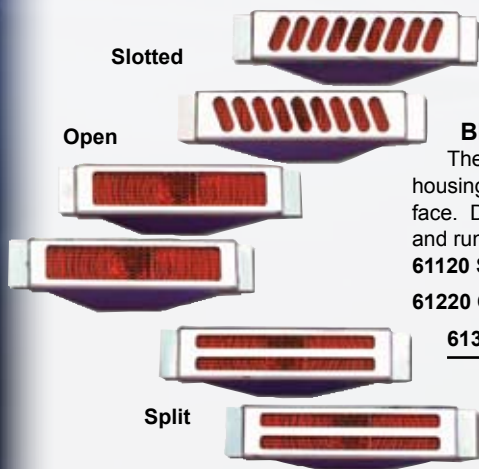

Oval 7"W x 1-3/4"H x 1"D

OVAL 3RD BRAKE LIGHT

Protect your assets with this billet aluminum 3rd brake light. Oval style features a swivel base to adjust to rear window angle and mounts easily on rear deck.

- 62220 49.95

A MUST HAVE !

BILLET BEZEL TAILLIGHTS

These taillights feature a 3-3/4" deep steel housing and a 1-1/2" H x 6" W billet aluminum face. Dual element bulb for brake/turn signal and running light functions.

- 61120 Split 99.95
- 61220 Open 99.95
- 61320 Slotted 99.95

ELLIPTICAL INTERIOR & DOOR LIGHTS

Keep the smooth lines of your interior intact with these elliptical interior and door lights. Polished finish. 4" W x 2" H x 1" D

- 60320 Interior Light 34.95
- 60420 Door Light 34.95

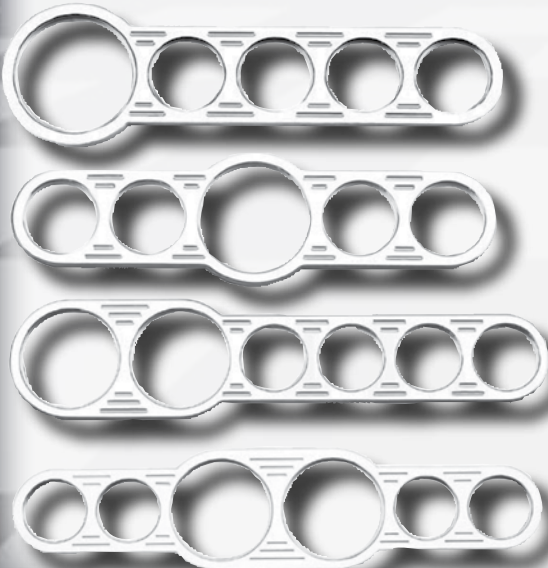

Large 6" W x 2-1/8" H x 4" D
Small 4" W x 1-3/4" H x 4" D

ELLIPTICAL TAILLIGHTS

Extra bright lenses make them as functional as they are cool. Small lights are perfect for mounting in fenders. Dual element bulbs for brake/turn signal and running light functions.

- 61420 Large 134.95
- 61520 Small 134.95

Dash Inserts

UNIVERSAL DASH INSERTS

- Designed for use with VDO or Autometer gauges. Choose from 3-1/8" or 3-3/8" gauge dia. Small ga holes are 2-1/16". NOTE: Stewart Warner and Classic gauges can be used with 3-3/8" dia dashes but will sit on top of the panel because of their large bezel size.

5 GAUGE PANELS

- 36120 3-1/8" Side 59.95

BORE STYLES

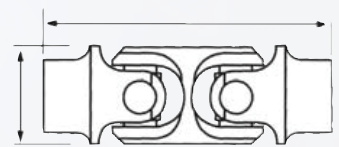

Double D Sizes and Borgeson Equivalent			
Nominal Size	Approximate Diameter (A)	Size Across Flats (B)	Borgeson Designation
17 mm Double D	0.670	0.570	6DD
3/4" Double D	0.750	0.550	7DD
1" Double D	0.993	0.790	1DD

Single Joint 15/8" x 31/4" up to 35° angle

Double Joint 15/8" x 47/8" up to 70° angle

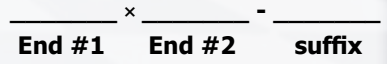

How to order:

Please use the charts and part number designations above to order your U-joint, or you can call our parts department and we will help you with your needs. We offer steel, stainless steel, or polished stainless U-joints in a single or double joint.

- Determine what you want on each end of your U-joint.
- Look up the appropriate part number from the chart listing part number designation or from the chart on the following page.
- Determine if your application requires a single or double joint and the desired finish.
- Use the suffix that correlates to the style and finish chosen.

Example:

736 748 - STS = 3/4" o.d. 36 Spline → 3/4" o.d. 48 Spline → Plain Steel → Single Joint
 7DD 730 - PSSTD = 3/4" Double D → 3/4" o.d. 30 Spline → Polished Stainless Steel → Double Joint

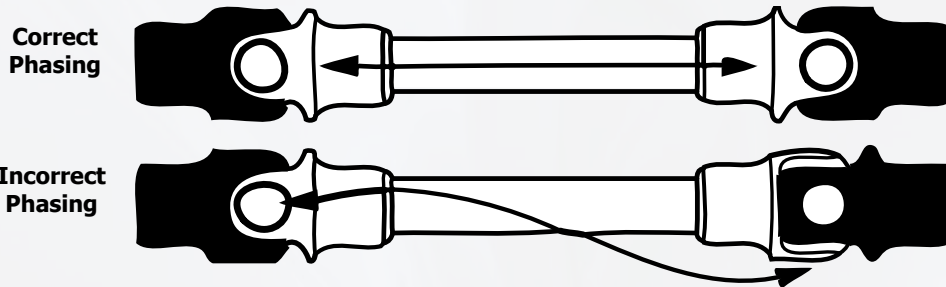

Suffix	Finish	U-Joint Style	Bore Style		
			Smooth + Smooth	Splined + Smooth	Splined + Splined
AL	Aluminum	Single	64.05	67.73	71.40

Intermediate shafts

U-joint orientation

When two or more joints are used on a shaft the forks of the yokes closest to each other should be inline or "in phase". Premature wear or binding can result if the u-joints are not phased properly. If the u-joints are at a severe angle, even if they are phased correctly, a hard spot in the steering may occur for no apparent reason. If this happens, index the u-joints two or three splines in one direction. The hard spot should be minimized if not completely eliminated.

How to determine shaft length

With Two U-joints

1. Measure the distance from the end of the column to the box/rack (Dimension "C")
2. Subtract 3" from this measurement.
3. Order the next even size shaft (Dimension "B")
 Example: If "C" is 18" -- subtract 3" (1 1/2" for each joint). "B" is 15". Order a 16" shaft and trim a total of 1" from the shaft, either from one or both ends.

With One U-joint and U-joint/Vibration Reducer Combination

1. Measure the distance from the end of the column to the box/rack (Dimension "C")
2. Subtract 4" from this measurement.
3. Order the next even size shaft (Dimension "B").
 Example: If "C" is 19" -- subtract 4" (1 1/2" for the u-joint and 2 1/2" for the vibration reducer). "B" is 15". Order a 16" shaft and trim a total of 1" from either end.

Determine Splined Shaft Length with Three or More U-joints

1. Buy the u-joints first.
2. Install a joint on the column and one on the box/rack.
3. Use dowels or PVC pipe and mock up the system around obstacles. Order the correct shaft lengths based on dowel or PVC lengths.

Couplers & Adapters

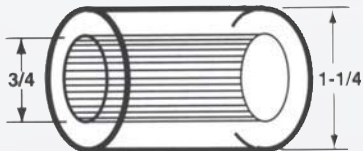

COUPLERS

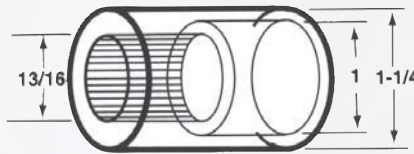

C736 - 3/4" 36 Spline x 3/4" smooth

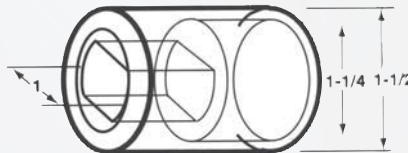

7DD - 3/4" DD x 3/4" smooth

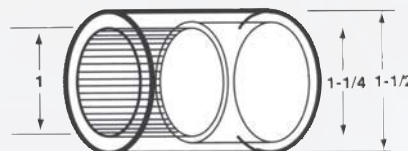

C736x2 - 3/4" 36 Spline only

C836 - 13/16" 36 Spline x 1" smooth

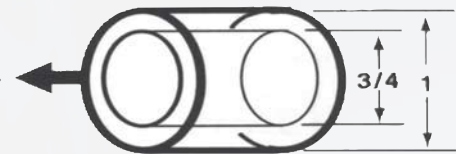

C1DD - 1" Double D x 1-1/4" smooth

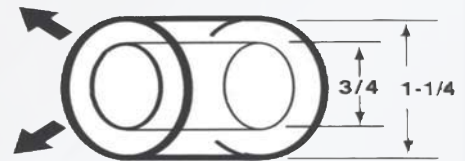

C148 - 1" 48 x 1-1/4" smooth

ADAPTERS

A-10R - 3/4" I.D. X 1" O.D.

A-12R - 3/4" I.D. X 1-1/4" O.D.

Often a u-joint can be eliminated or placed in a more desirable location by using a 2" extension called a coupler to extend either the steering box, rack and pinion shaft or the column shaft. The 1" x 48 Spline and 1" x DD Couplers have a 1 1/4" hole that will accept an adapter to reduce I.D. to 3/4" smooth bore. The couplers requiring an adapter would have to be pinned or welded together. All couplers and adapters are available in stainless steel or polished stainless steel.

Vibration reducers

Vibration Reducers: Vibration reducers are used to cut down on the vibrations of the road that is transmitted to the steering wheel. These inline reducers are available with the following coupler ends:

Female End	Part Number
9/16" - 26 Spline526
5/8" -36 Spline.....	.636
3/4" -30 Spline.....	.730
3/4" -36 Spline.....	.736
3/4" -Double D7DD

Male End	Part Number
3/4" -36 Spline.....	Male Stub

Vibration reducers have a stainless non-polished cover. Polished covers are also available. Vibration reducers are available with a female/female, female/male, or male/male combination. Please use the part numbers to the left and the part number format below to order.

VR-_____x_____ use this format for non-polished reduces

PVR-_____x_____ use this format for polished reducers

Example 1: "VR-526xMale Stub" is a non-polished stainless steel vibration reducer with a 9/16"-36 spline female on one end and a male stub 3/4"-36 spline on the other.

Example 2: "VR-730x7DD" is a non-polished stainless steel vibration reducer with a 3/4"-30 spline female on one end and a 3/4" Double D female on the other.

Example 3: "PRV-736x736" is a polished stainless steel vibration reducer with a 3/4"-36 spline female on both ends.

Note: Only the cover is polished.

All Non-Polished Vibration Reducers **63.00**

All Polished Vibration Reducers **78.00**

Vibration reducer/u-joint combination

Vibration reducer/U-joint Combination: The vibration reducer/u-joint combination comes with the same available sizes on the coupler end as the vibration reducers, and is available with any spline or Double D size on the u-joint end. You must refer to the table that lists all of the part number designations for u-joints to choose the proper number for the u-joint end of this item. You must also use the chart for vibration reducers to choose the proper number for the coupler end. These are available in plain steel, stainless steel, or polished steel. The suffix will determine what type of metal it is made of.

Suffix Key

S = Plain Steel

SS = Stainless Steel

PSS = Polished Stainless Steel

VUJ_____x_____ - _____
 U-joint end Coupler end Suffix

Example: "VUJ-517x636-PSS" is a vibration reducer/u-joint combination in a polished stainless steel finish with a 9/16"-17 Spline on the u-joint end and a 5/8" spline on the coupler end.

Plain Steel **99.00**

Stainless Steel **114.00**

Polished Stainless Steel **159.00**

Support Bearings

Support Bearings: If more than two u-joints are used in a steering system, a support bearing must be used to prevent looping or binding. The support bearing must be mounted to the frame and not sheet metal. If your steering system has a double u-joint and a single u-joint this counts as a 3 u-joint system and requires a support bearing. All support bearings have a 3/4" hole size. We offer rod end bearings with two jam nuts for mounting as well as aluminum support bearings that are 2 1/2" long with two threaded holes in the end for mounting.

Description	Part #	Price
Plain Rod End Bearing	REB-PL	28.00
Stainless Rod End Bearing	REB-SS	69.00
Polished Stainless Rod End Bearing	REB-PSS	84.00
Aluminum Support Bearing	SB-AL	39.00
Polished Aluminum Support Bearing	SB-PAL	54.00

Note: 3/4" Double D shafts will work with the above support bearings.

STEERING BOXES

SAGINAW 525

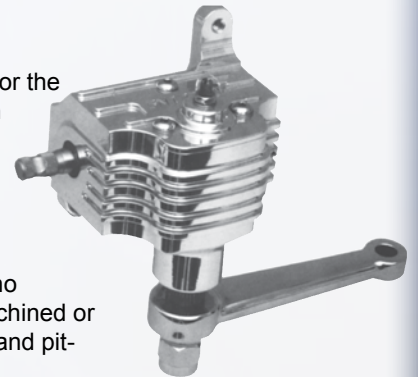

Brand new OEM and rebuilt units are available. The GM 525 steering box is a stout unit that has with stood the test of time. GM started producing this box in the 50's and still uses versions of it for production vehicles today. The GM 525 steering box is available with a 1" or a 3 1/2" long input shaft with 16 to 1 or 22 to 1 steering ratios. All Mullins boxes have a three year warranty.

New

920010. 299.00

GM 140 BILLET BOX

Designed as a direct replacement for the GM 140 Vega steering box but with a stylish case CNC machined out of solid 6061-T6 billet aluminum. Sector shaft diameters, input shaft splines, and mounting bolt patterns are all the same as the standard 140 box so it is an easy, no hassle bolt-on. Available with a machined or polished finish. Stainless steel nut and pitman arm are sold separately. Machine Finish

920001. 675.00

GM SAGINAW 605 POWER STEERING BOX

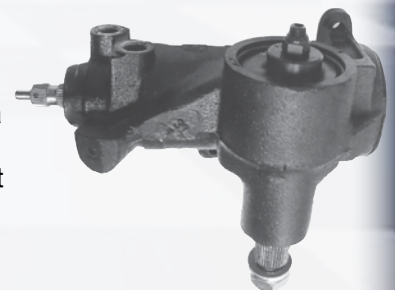

The 605 is used in many applications where space is a concern. The smallest power steering box from Saginaw has approximately a 16 to 1 constant ratio. Why waste your time and trouble getting a unit out of the junk yard that might be shot, when you can get one from Borgeson with a warranty?

Rebuilt Saginaw 605 P/S Box 3/4-30 Flare

800100. 275.00

New Saginaw 600 P/S Box 16:1 Ratio 3/4-30 O-ring

800207. 549.00

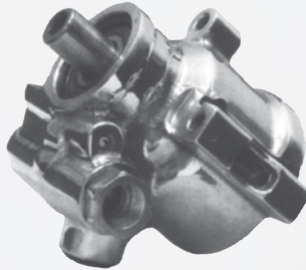

Borgeson rebuilds GM Saginaw power steering boxes to the same high standards that their needle bearing u-joints must meet. They totally disassemble each unit, chemically clean all parts, refinish the housings, thoroughly inspect all components, and replace any worn parts. Each is then carefully assembled and adjusted to factory specs.

Self contained saginaw gm power steering pump

These self-contained power steering pumps are available with either steel or aluminum pulleys. New and rebuilt to OEM specs. Brackets are available for most popular applications.

Gearshift position indicator sending unit

The first universal, adjustable, gear shift indicator sending unit featuring automatic one button calibration.

CHECK OUT THESE FEATURES:

- Universal mounting hardware fits all automatic transmissions including Chevrolet TH350, TH400, 700R4, 4L60, 4L80, and powerglide; Ford® C-4, C-6, and AOD; Mopars and many others.
- Fully adjustable - No magnets to align! Each transmission position features an individual electronic adjustment.
- Neutral safety switch built in.
- Reverse back up light circuit provided.
- Decoder unit can be mounted inside the vehicle for easy access to one button calibration.
- Compatible with all 12 volt common ground L.E.D. indicators as well as all Dakota Digital gear shift indicators and instrumentation systems. Will not work with Lokar indicators.

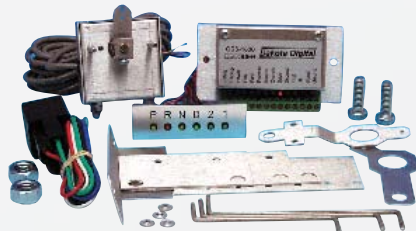

Each GSS-2000 kit includes: universal hardware pack, electronic sending unit, and gear shift decoder unit.

Gearshift position indicator

Dgs-3 and dgs-4 gear shift indicators with turn signal, high beam, and auxiliary lights.

Gear shift position indicator

Expanding on the line of popular gear shift indicators, Dakota Digital is pleased to offer the all new DGS-3 and DGS-4! Both products feature automatic gear shift indication, turn signals, high beam indicator, and miscellaneous indicator to be used for check engine, 4WD, cruise control, security or anything else necessary! Available in several different color combinations, these units are sure to complement any application. Both products are situated inside fully machined aluminum housings, with the DGS-3 measuring 15/8" in diameter. The DGS-4 has taken design cues from their new elliptical shaped Ion Series and is a perfect match to that set, or even as a standalone unit.

For use with GSS-2000 gear shift sending unit.

Universal speedometer signal interface

Universal speedometer signal interface

The Universal Signal Interface Unit can handle all of your electric speedometer signal conversion and calibration problems.

The SGI-5 can recalibrate 8K ppm-250K ppm electric speedometer pulse rates. Great for readjusting aftermarket and OEM electric speedometers on vehicles after changing rear end gears. **Not for use on vehicles with anti-lock braking systems.** The SGI-5 can also handle all of your speedometer pulse rate incompatibility problems. VDO Hall Effect Speedometer generator outputting 16K ppm and your cruise control requires a 2K, 4K, or a 8K pulse rate? No problem! Older GM 700R4 transmission outputting 4K ppm and your new cruise control requires 8K ppm? No problem! SGI-5 can also assist creating tach signals for diesel engines when using a flywheel gear-tooth sensor.

Power accessory control

Digital climate control system

Dakota Digital is proud to release the DCC-2200 Digital Climate Control system designed for Vintage Air Gen-II Systems! Created to interface directly to a Gen-II Air Conditioning system, the DCC-2200 provides the convenience of full climate control. Similar to other Dakota Digital instruments, the DCC-2200 offers a full-character vacuum fluorescent digital readout for a simple and beautiful approach to updating your A/C system! Installation is nearly effortless with the addition of a pair of temp sensors, while plugging directly into the Gen-II wiring! Built in the USA, the DCC-2200 offers a full two year warranty!

Power accessory control

Programmable fan controller

The PAC-2000 was designed for the ultimate in flexibility and to be a simple add-on in any application using an electric fan with either single or dual fan configurations. Fully programmable, the PAC-2000 will work with your existing water temp gauge, operating from the temperature sending unit already installed! A dedicated sending unit can be installed for applications without a water temp gauge. The PAC-2000 features fully programmable "fan on" and "fan off" temperatures to suit any application or personal preference. The PAC-2000 can leave the electric fan operating after the engine has been shut down for a user adjustable time. The PAC-2000 offers a full digital LED readout for displaying temperature readings and maintaining simple installation.

Universal tachometer signal interface

Universal tachometer signal interface

The SGI-8 tachometer signal interface is designed to allow a factory tachometer to function accurately after performing an engine swap to an engine with a different number of cylinders or tach signal. For example - after a customer has swapped out their V-6 for a V-8 they can use the SGI-8 to recalibrate the tach signal from the V-8 to read accurately on the factory V-6 tachometer! This unit is capable of recalibrating tachometer signals for nearly any engine swap combination!

Universal tachometer interface unit SGI-8 each. 79.95

Cruise control

This is the only cruise control that will work with the high performance motors of street rods and sport trucks. This advanced electric servo cruise control uses solid state electronics for exceptional accuracy and reliability. It requires no vacuum and will work with radical camshafts and blown motors. Small and quiet enough to hide under any dash. A simple wiring harness and built in self-diagnostic check makes for exceptionally easy installation. Add the safety and convenience of cruise control to your vehicle today. 36 month/ 36,000 mile warranty.

For vehicles with cable driven speedometers: Includes electric servo, mounting hardware, wiring harness, electric speed sensor, and choice of control handle. Speed sensor attaches in-line with speedometer cable.
CRS-2000 each. 250.00

For vehicles with electric speedometers, or for use with Dakota Digital instruments: Includes electric servo, mounting hardware, wiring harness, and choice of control handle. Compatible with 2,000 to 40,000 pulse per mile speed signals. (Dakota Digital instruments use 8K ppm signals).
CRS-3000 each. 215.00

You've put nothing but the best parts into your hot rod, and spent a lot of time building your ride, and now it's time for a little luxury. Luxury at a price you can afford begins with a set of ELECTRIC-LIFE's Super Street Rod Power Window Kits. Installation is a snap with the easy to understand instructions, and if you can't read... give the pro's a ring, because we're motor heads, too. Then just sit back, press the switch and enjoy! Our Super Street Rod Kits are state of the art and will add that final custom touch to your vehicle. Included are all the necessary components that you will need to complete the job. Don't be fooled by the inferior knock-offs on the market - ELECTRIC-LIFE is the original manufacturer of the Super Street Rod Kit. They feature heavy-duty OEM quality Bosch/Unis motors, with screw cable drive. You deserve the best and we back it up with a lifetime warranty.

ELECTRIC-LIFE is an OEM manufacturer supplying power window systems to Ferrari, Lamborghini, Mercedes and Volvo, just to name a few. No other aftermarket power window manufacturer can make that claim. These are quality products for quality Rods.

Try a kit and see why over 50,000 Street Rodders say ELECTRIC-LIFE is simply the best out there!

- The Super Street Rod kit is a complete regulator and motor assembly that can be installed in any vehicle originally equipped with straight glass.
- ELECTRIC-LIFE offers three different versions of the Super Street Rod Kit. Pick the style that suits your needs.
- The Super Street Rod Kit uses "OEM Style" motors for smooth, quiet operation.
- The Super Street Rod Kit contains all the necessary components to complete a 2-door installation.
- Super Street Rod Kits do not come with the switches, but they are listed on the following pages.

EL - Series Power Window Kits

The EL2000 differs from the other EL-Series kits in the way it mounts to the glass. This kit was truly designed for the DIY'er when it comes to ease of installation. The unit comes with a floating mounting head with 2 rubber isolated mounts that clamp directly to the glass. The unit is also self-containing, which ensures that the window is fully closed and seated in the sill. With the exception of the mounting system, our EL2000 is an exact replica of the EL1000.
 EL2000* kit325.00

The EL3000 is the slim line version of our EL2000. The EL3000 has the same chassis as the EL1000, with a newly designed roller bracket which offers "Z" axis motion allowing the regulator to follow the curvature of the glass. Even with its smaller size, the EL3000 has just as much power as the EL1000. It can be mounted in doors as narrow as 2"; a perfect solution for the Narrow door!
 EL3000* kit360.00

STEERING BOXES

VEGA BOX

The Flaming River Performance Vega style steering box is an all NEW unit designed specifically for street rods. This box is 30% stronger than the OEM box and utilizes the latest technology with a smooth needle bearing design. This new design far outlasts the original bushing design of the 70's. Direct Bolt-In Replacement - New Needle Bearing Design - Stronger Casting & Internals - One Year Warranty

The Vega-style box is preferred by most builders due to the steering geometry of straight axle equipped cars. We have dramatically improved the Flaming River Vega-style box.

- NEW high tech chromed cap included.
- Factory marked center position.
- Smooth needle bearing design for longer life
- Heavy-duty worm gear and roller bearing design is 30% larger than original for smoother, more comfortable steering end to end
- Crowned Sector - Higher torque at center position reduces vibration and provides for more natural return of steering wheel.

- FR1500 Steel..... 359.00
- FR1500Q Steel Quick Ratio 459.00
- FR1500C Chrome Steel..... 599.00

NEW POWER STEERING BOX

Trivalent Chromium Free Plating offers ten times the corrosion resistance of a painted box. Features Unique Tech billet cap included.

Rack and Pinion Valve Spool for SMOOTH, PRECISE steering and handling.

Four Bolt Mounting Pattern also interchanges to early three bolt application.

Available in four ratios (12:1, 14:1, 16:1, 17:1) to fit virtually any application with the steering feel you prefer. NOTE: Ratios are approximate - input shaft 3/4-30 spline

- FR1560 Power Steering box 12:1 ratio, plated w/ billet cap 489.00
- FR1561 Power Steering box 14:1 ratio, plated w/ billet cap 489.00
- FR1562 Power Steering box 16:1 ratio, plated w/ billet cap (OE ratio)..... 489.00
- FR1563 Power Steering box 17:1 ratio, plated w/ billet cap (OE ratio)..... 489.00

Integral Reservoir Pump

Reservoir features trivalent chromium free plating for corrosion resistance. Flow of 2.7 to 3.1 gallons per minute. Pump can be interchanged to earlier reservoir with o-ring adapter kit (FR15720R). Fits most popular GM applications.

- FR1572.....169.00

Variable Pressure Pump

Pressure reduces at higher RPM for maximum control during highway driving and easy steering in parking situations. Remote reservoir (FR1614) required.

Swan Neck Style

UltraShifter 12"

Also offered is a Rear Mount Shifter with a 12" Stick and Aluminum Knob (not pictured)

Part number	description	price
GS 1000-SPO	Ultra Shifter - 12"	219.95
GS 1001-SPO	Ultra Shifter - 16"	219.95
GS 1002-SPO	Ultra Shifter - 23"	219.95
GS 1003-SPO	Ultra Shifter Swan Stick	230.95
GS 1004-SPO	Rear Mount Shifter	186.95

YOU MUST SPECIFY A TRANSMISSION STYLE WITH THE PART NUMBER ABOVE TO INSURE A CORRECT MOUNT AND FIT.

You must specify when ordering a shifter what type of transmission you are using. Below are the available options.

GM Powerglide	GM TH350
GM 4L-60	GM 4L-80
GM TH400	GM 700R4
200R4	Mopar 727
Mopar 904

GS2003	87.95

brake cables

Gennie Shifter provides a variety of Emergency & Parking Brake cable kits that can be used to connect you in almost any applications. Recommended by Wilwood Engineering for use in installing some of their rear parking brakes.

GS2006	GS-2 For Drum Brakes - Fits Gennie hand brake -This kit provides the hardware required to attach the Gennie Hand Brake (11" or 16") to cables that are compatible with most rear drum brakes.	98.95
GS2007	GS-1 - For Jag Rears - Fits Gennie hand brake - This kit provides the hardware required to attach the Gennie Hand Brake (11" or 16") to a single cable that is compatible with Jag rear ends.	54.95
GS2008	UN-2 - For Drum Brakes - Universal Design - This kit provides the hardware required to attach most parking brake handles (includes the Lo-Line Plus hand brake) to two cables that are compatible with most rear drum brakes.	98.95
GS2009	UN-1 - For Jag Rears - This kit provides the hardware to link most parking brake handles (including the Lo-Line Plus Hand Brake) to single cable that is compatible with jag rear ends.	54.95
GS2010	FF-1 - Fat fendered Single Cable to UN-2 - This kit provides a single cable and the hardware needed to connect an old style, under dash parking brake to a UN-2 cable kit.	47.95

BRAKE HARDWARE

Some applications require a clevis to properly attach the cables to different types of brakes. Gennie Shifter offers a selection of brake clevis kits.

GS2011	Cable Clamp Kit	8.95
GS2012	Clevis Kit 1/4" Pin	19.95
GS2013	Clevis Kit 5/16" Pin	19.95
GS2014	Corvette Clevis Kit	25.95

throttle & kickdown cables

GS4006	Engine dipstick - with flexible tube - Chevy big block	50.95

Some Tips For a Successful Ididit Column Installation.....

1. Before you start, the seat you will be using or a good facsimile MUST be in place. That means no milk crates or lawn chairs are acceptable. The steering wheel position and the pedal position all relate to the comfort of the driver. Getting them right can be the difference between pleasure and pain behind the wheel.
2. Equally as important is the location of the engine, cylinder head, and headers. These components, or good mock-ups, should be in place to assure you have proper clearance for your steering linkages.
3. The position of the transmission linkage is also important. IF you do not have clearance for a solid rod style linkage and a cable shift linkage is necessary, be sure to leave yourself two inches of space between the columns lower shift linkage and the firewall.
4. Center your column on the driver's seat. Offsets and angled columns are awkward and uncomfortable.
5. Position the column/steering wheel so your arms are relaxed and comfortable when the seat is adjusted.
6. Locate column for maximum use of the tilt mechanism. It does no good to have the wheel tilted into the dash or down on the seat.
7. Column drops should be made to fit both the bottom of the dash and the column snugly and in a stable fashion. No wobbles or vibration should be expected.
8. Lower mounts should be stable and adjustable to fit the angle of the floor or firewall where the column passes through (or a fixed custom made mount fabricated). This mount MUST also be sealed tight from exhaust fumes, heat, dirt, and water.
9. If you have a floor mounted brake and/or clutch pedal assembly, make sure you have clearance for the column.
10. Use up to three U-joints and joint supports as needed to keep the linkage operation smooth, strong, stable and safe.
11. **Ididit, Inc.** recommends using splined or DD shafting instead of welded or pinned shafting for safety reasons.

As silly as it may sound, they have found that using an aluminum pie tin and a length of wooden dowel is an excellent way to determine column position and length. Use about 4 feet of dowel. Add between 1-1/2 inches and 3 inches beyond the firewall/floor if using a steering box. If you are using a rack, you can go as far as 5 inches into the engine compartment. Watch for clearance.

Simply tack the tin to the dowel (as seen in steering wheel to column), and have one person hold them in position while seated in the driver's seat. A second person can then measure and mark such essential dimensions as how long the column should be from the steering wheel to the firewall/floor, the distance between the center of the column and the bottom of the dash, the point where the column will pass into the engine compartment, and the center-line of the driver's body/seat.

Sometimes the simplest way is also the best.

Measuring Suggestions:

For Steering Columns:

Ididit, Inc. measures a steering column from the top of the column - the top edge of the column housing - down to the bottom of the output shaft on all columns EXCEPT tilt/telescoping columns.

Tilt/telescoping columns are measured from the top edge of the column adapter down to the end of the output shaft when the column is in fully collapsed position. The steering wheel will take up approx. 1-1/2" above the adapter. In the following pages, the standard measurements are shown for each type of column. Use these drawings to determine the critical measurements according to your specific applications.

For Column Drops:

Ididit, Inc., measures column drops from the mounting surface on the bottom of the dash to the center-line of the steering column.

Please remember that we can only supply you with the correct column and accessories if you take the time to make careful measurements. These are guidelines for you to determine what you need, but because your project is unique, you are responsible for locating each component. Call if you have additional questions. We are here to help you!

How to Measure a Steering Column

STEP 1 Steering Wheel and Adaptor

Most aftermarket steering wheels will need 4" from the gripping surface of the wheel to the top of the outer housing of the steering column. Measure and mark the dowel. This is where the measurement of your steering column should start.

STEP 3 Lower Cone

This part of the column is customizable. Standard length is 3.3", it can be shortened to 1.5" upon request (normal custom charges apply). Measure 3.3" (or custom length if it applies) from the bottom of the sleeve or shift hub and mark the dowel.

STEP 5 Tube

The tube can be made to any length longer than 4.7". The tube can protrude through the floor as long as you would like or can stop inside the vehicle like our "shorty" column. In standard applications the tube should protrude through the floor 1"-3". On column shift versions the lower shift linkage will attach to the end of the tube. Mark on the dowel where the firewall will meet the tube.

STEP 2 Upper sleeve and shift hub

These two pieces can not change in size. Measure 4" (floor shift) or 6 1/4" (column shift) from the top of the column and mark the dowel.

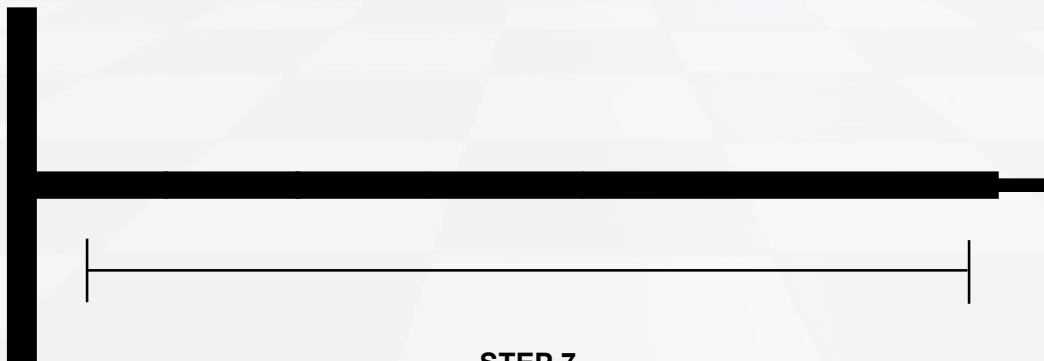

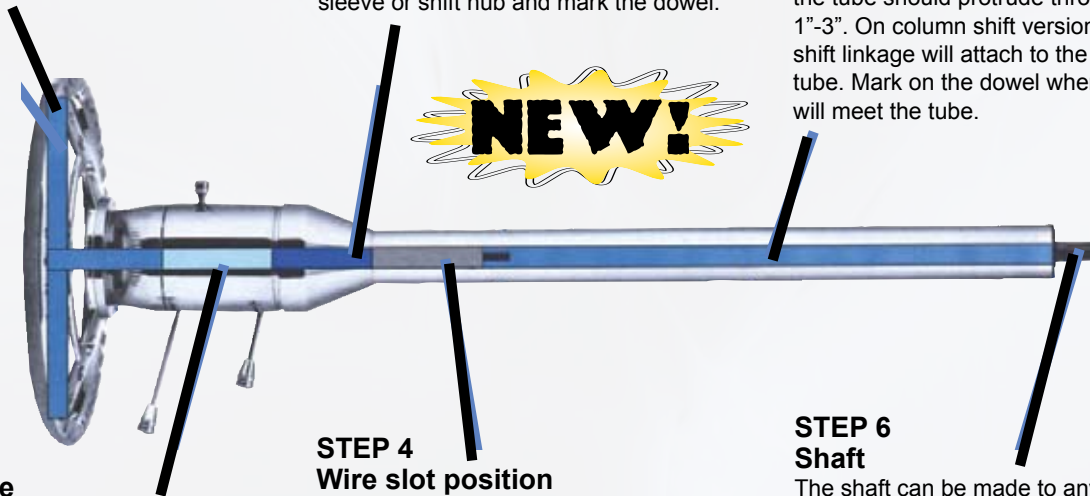

Add 1/4" to represent the gap between the sleeve and the cone.

STEP 4 Wire slot position

The position of the wire slot is important because it will determine where your under dash mount will attach to the column. The standard is 4" below the cup at 12 o'clock.. This can be customized. The maximum is 10" below the cup on a floor shift and 7.75" on a column shift. Be sure to tell us what position on a clock face you would like it to be. Measure 4" (or custom length if it applies) from the bottom of the cone and mark the dowel.

STEP 6 Shaft

The shaft can be made to any length between 1.5"-8" from the bottom of the tube. The shaft can be 1" 48, 1" DD, 3/4" 36, or 3/4" DD (custom charges may apply). Measure 1.5" (or custom length if it applies) from the end of the tube. Mark on the dowel where the shaft will end.

STEP 7

Calculate the numbers

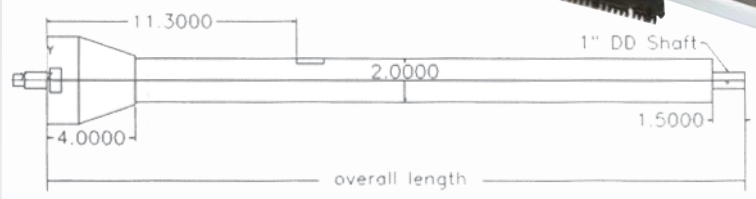

On the dowel measure from the top outer housing (Step 1) to the end of the output shaft (Step 7). Be sure to note any custom dimensions for step 3-6.

NON-TILT COLUMNS

SPECIFICATIONS	
Tube Diameter	Steel - 2 • Aluminum 1 3/4"
Output Shaft	Steel - 1" DD • Aluminum 1" 48
Available Finishes	Paintable Steel • Chrome-plated Steel Brushed Aluminum • Polished Aluminum
Steering Wheel Adapter Required	69 or newer GM pass car

STEEL OR CHROME NON-TILT COLUMNS

This simple but handsome column is similar but much cleaner in appearance than factory columns. The length of the column head makes this column very small, yet completely functional. By requiring less space than the tilt version this column can be put into the smallest of driving compartments. Living up to the saying good things come in small packages.

NON-TILT STEEL OR CHROME COLUMN

	Paintable Steel	Price	Chrome	Price

ALUMINUM NON-TILT COLUMNS

If aluminum is what you're after, then these are the answer for you. Aluminum non-tilt columns offer the same space saving features as the steel or chrome version. The aluminum columns are available in brushed or polished finish. The brushed column is clear anodized making it nearly maintenance free. No matter which column you prefer, nothing matches the elegance of aluminum.

NON-TILT ALUMINUM COLUMNS

STEEL TILT COLUMN

This column has become an industry standard. While it is not the most expensive column, it is by far the most popular. The steel tilt column offers the added comfort of tilt as well as self-cancelling turn signals, four-way flashers, and standard dress-up kit. For extra eye appeal, you can order your steel tilt column in a chrome-plated finish.

STEEL TILT COLUMN WITH IGNITION SWITCH

Put the convenience of an ignition switch at your fingertips with a tilt column and ignition. Along with the standard tilt column features this column also includes two coded keys and an electric switch. The ignition switch is smaller and is encased in a smooth, sleek housing that is not only pleasing to the eye but concealed enough that you may not even know it's there. The column also includes fuses and relays to carry the high amperage of present day electrical systems.

Tilt Floor Shift Steering Column

Tilt Column Shift Steering Column

Add the convenience and reliability of a new column built specific for your Pickup. This steering column is not a universal column that requires modification of your original vehicle to install. Simply remove your old column, saving your original under-dash mount as well as the original floor mount. Using one of their installation kits (listed below), install your steering column in place of the old. Add an aftermarket wheel and the gripping surface of the new wheel will be in the same location as the original. Each column is backed by a limited lifetime warranty and is available in many different finishes.

Standard Features:

- Self Canceling turn signals
- 4-Way Flashers
- Knobs and Handles
- 3-7/8" Wiring Harness
- 3/4" - 36" Shaft for all years

With the same specs as the tilt floor version (shown above), the column shift column is just as easy to install. The column has been modified to put your aftermarket wheel in the same location as the original. The column comes complete with a neutral safety switch, however an indicator is not included. The shift pattern on the column will allow you to use either a 3-speed or 4-speed transmission (except early power glide because they have a reverse pattern transmission). A shift linkage is required for installation and will attach to the lower shift linkage provided on the column.

TILT FLOOR SHIFT STEERING COLUMNS

INSTALLATION KITS - All kits include the necessary components for installation

Deluxe Kits - Everything necessary to install your column with new parts from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of splines.

Econo Kits - The Econo kit is designed for the builder on a budget. The original rag joint and intermediate shaft are used. In the 1960-66 model, the shaft will need to be cut and modified to match the 3/4" DD coupler. In the 1967-72, the original u-joint can be used with the ididit column. Remember the original rag joint is nearly 40 years old, so be sure to double check that it's in good condition.

Original Harness - Installation kits for vehicles with a factory original harness will include a 4-way flasher kit. This 4-way flasher kit will add the convenience of a 4-way flasher as well as convert your original wiring harness to the 3-7/8" harness found on your ididit column.

Aftermarket Harness - Many aftermarket wiring companies offer replacement panels that incorporate a 4-way flasher unit as well as the flat 3-7/8" harness. If you are using one of these panels a 4-way flasher kit is not necessary as it has been incorporated into the panel.

Ididit offers these add-ons for use in your steering column. While any of these items can be added to your column it is much easier while the column is being assembled. Labor charges apply. Ask your sales representative about adding any of these items.

CRUISE CONTROLS

For non-computer engines:

This Rostra electric servo unit uses solid state electronics for accuracy and reliability. Servo and control units are small enough to fit under any dash. Kit includes pulse generator and your choice of control handle.

Cruise Control Kit - Non-Computerized Engine
3100020000 each275.00

For computerized engines:

This Rostra unit gathers information from your car's computer, so no external sensors are required. Adjustable for 2000, 4000, or 8000 pulses per mile. Small enough to fit under any dash. Kit includes your choice of control handle.

Cruise Control Kit - Computerized Engine

STEERING WHEEL ADAPTORS

These are simply made to adapt the 3, 5, 6, or 9-bolt pattern to the tapered, splined top shaft of a steering column. All Ididit adaptors will fit most Ididit columns as well as most 1969 or newer GM passenger car columns. The adaptor is secured to the top of the column with a single nut.

SHORT 9-BOLT ADAPTORS

The short 9-bolt is unique. It moves the bolting surface of a steering wheel 2" closer to the dash than a standard wheel. Caution should be taken when using this adaptor. Note the clearance required between the wheel and the turn signal lever and/or shift arm. Modifications may be necessary for proper installation.

9-BOLT ADAPTORS

The 9-bolt pattern adaptors will match Lecarra, Billet Specialties, Budnik, Boyd, Grant and many other aftermarket wheels.

5 & 6 BOLT ADAPTORS

Grant & Lecarra version of this adaptor will come with a horn button, Momo, Dino, Nardi, Diablo and Corvette wheels do not.

3-BOLT ADAPTORS

Grant and Wheel Shopped are the most popular applications for the standard three-bolt, while the "Bell" style adaptor adds the convenience of a horn button to a Mullins or Pete & Jake wheel.

STEERING WHEEL ADAPTORS

	Brushed	Price	Polished	Price	Chrome	Price

1928-59 PICKUP DISC BRAKE KITS

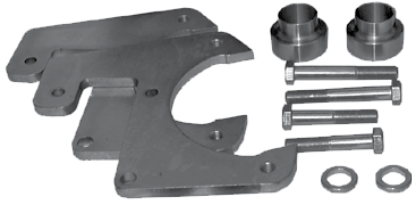

Master Power Disc Brake kits bolt to your stock Chevy spindles without modification. All kits provide perfect caliper alignment for even pad wear and support. The calipers are designed by GM (not by the mounting bolts as some other kits do). MPB kits are complete with everything you need and ready to bolt on with common hand tools.

Kits Include the following: Caliper brackets • New Calipers • Rotors • Bearings/Seals • Dust Caps • Pads • Hardware Hoses/Hose Brackets • Bearing Adapters where required. **Bolt circle is 5 x 4 3/4 GM**

NOTE: Disc Brakes require the use of 15" Wheels for these kits

Years	Description	Part #	Price
1928-40	Disc brake kit, bottom	DB1751B	395.00
1941-54	Disc brake kit, bottom	DB1752B	395.00
1955-59	Disc brake kit, bottom	DB1753B	395.00

DISC BRAKE BRACKET SET

If you want to obtain your own components and add disc brakes to your truck this caliper bracket kit is what you will need. Each kit includes brackets, hardware and bearing adaptors when required. You supply the rest.

1960-70 PICKUP DISC BRAKE KITS

1963-70 SHOWN

POWER DISC BRAKE KITS

You just can't enjoy driving your truck without reliable disc brakes. These kits include the parts necessary to perform a disc brake conversion. You'll just have to supply a few pieces of hard brake line to tie the system in from the supplied combination valve to the rest of your system. These kits are available in stock height or 2 1/2" dropped spindle configuration, with or without power booster and in a 5 or 6 lug pattern. 1/2 Ton Pickups ONLY.

Each kits includes: Booster • Master Cylinder • Combination Valve Kit • Spindles • Caliper Brackets • Calipers • Pads • Rotors • Bearings Seals and Hoses. NOTE: Use of stock wheels requires backspace of at least 4 1/2".

Valves

The **valving** in a disc brake system is needed to supply the correct front to rear balance. There are three types of valves used in a braking system:

1 Metering

A metering valve is needed in the front disc portion of a disc / drum system to allow the rear drums to contribute to the braking. The rear drums are slower reacting than the front discs. The metering valve retards the application of the front disc brakes slightly allowing the rears to catch up. Without a metering valve the car will "nose dive" and you will experience excessive front pad wear.

Metering valve to prevent excessive front braking and allow the rear drums to contribute to the braking.

VL3526 each \$89.95

2 Proportioning

A proportioning valve modulates the pressure to the rear drum brakes. The modulation is necessary to minimize rear wheel lock up found in heavy braking and to compensate for the difference in braking conditions in front disc rear drum systems. As pressure is applied to the system, full pressure is allowed to the rear drums up to a certain point. Beyond that point pressure to the rear is reduced preventing rear wheel lock up.

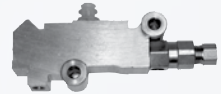

Adjustable proportioning valve to provide extra adjustment to the rear drums.

VL3350W each 89.95

An adjustable proportioning valve is used when you have a special rear condition that requires higher or lower pressure than normal conditions. You should always use a metering valve to the front when using the adjustable valve to the rear.

Provides the correct front to rear pressure balance and eliminates rear wheel lockup and nose dive.

Disc / drum combination valve
VL3350 each 99.95

Disc / disc combination valve
VL3359 each 109.95

3 Residual

There are two types of residual valves used in a braking system. A ten pound residual valve will maintain a line pressure to keep the rear drum brake shoes out close to the drums giving a higher firmer pedal. Without this 10 lb residual valve to the rear you will experience a spongy pedal. A two pound residual valve is required whenever the master cylinder is lower than the calipers to prevent backflow of fluid from the calipers to the master. These two pound valves are typically used when the master cylinder is mounted under the floor in a street rod application.

10 lb residual valve used in the drum brakes to keep the shoes out close to the drums eliminating a spongy pedal.

VL3710K each 26.00

2 lb residual valve used to prevent fluid backflow from the calipers to the master cylinder in under floor applications eliminating spongy pedal.

VL3702K each 26.00

Helpful tools

MASTER CYLINDER BLEEDER KIT
Always bleed the master cylinder before installation on the vehicle. Fittings screw into the master cylinder ports and the piston is worked in and out to remove the air.

AC2002 Bleeder kit 3.95

PLUMBING SURVIVAL KIT
This handy plumbing kit contains miscellaneous fittings to help plumb up your braking system. Also included are the solid plugs needed to perform master cylinder diagnostics.

AC2000 Plumbing kit 29.95

POWER BOOSTER PUSH ROD GAUGE
Use this tool to correctly set the length of your power booster push rod. Set the depth of the master piston hole, flip the tool and check the length of the booster pin. Using this tool can save you hours of frustrating work!

- Chrome Drier
- 14" Electric Condenser Fan
- Condenser Fan Wiring Kit
- Defrost Outlet
- Trinary Pressure Switch
- Radiator Fan Shroud
- 16" Electric Fan w/Shroud

Information Required to Order:

- 1. Engine:** Size, Year, Make
- 2. Water Pump Length:** Short or Long (Chevy V8 Engine)
- 3. Compressor Mount:** Driver or Passenger Side
- 4. Refrigerant Choice:** R-12 or 134a

NOTE: Clean firewall version may require modifications to firewall and or kick panel area to complete installation.

**1955-59 CHEVROLET & GMC PICKUP
CUSTOM A/C, HEAT AND DEFROST SYSTEM**

INCLUDES DELUXE LEVER CONTROL
Replica lever control for the Hurricane A/C Heat & Defrost system replaces original heater control to maintain an original appearance.

This system is designed for easy installation with Deluxe Lever Control, Custom Corner Louvers, New Plastic Glove Box, Custom Condenser Mounting, Floor Heat and De-Humidified Defrost. Unit mounts directly to the firewall utilizing stock heater mounting locations. A Clean Firewall Unit is also available along with the Billet Slide Lever A/C and Heater Control, Bulkhead fittings and Billet Vents to add a unique custom touch to your truck. Compressor and alternator brackets available for V-8 and inline straight six cylinder Chevrolet engines.

1955-59 Chevy Pickup
Includes New Dlx Lever Control Complete System
CAP-9000 1,065.00

1955-59 GMC Pickup
Integrates with Factory Lever Style Controls Complete System
CAP-9000G 1,065.00

1955-59 Chevy & GMC Pickup
Underdash Rotary Switches & Controls Complete System
CAP-9000S 1,065.00

Optional System Upgrades

- Polished Compressor
- Chrome Drier
- Kick Panels
- Defrost Outlet
- Water Pump Fan
- Radiator Fan Shroud (fits stock radiator only - will not fit Desert Cooler radiator)

INQUIRE FOR UPGRADE PRICING

Information Required to Order:

1. **Engine:** Size, Year, Make
2. **Water Pump Length:** Short or Long (Chevy V8 Engine)
3. **Compressor Mount:** Driver or Passenger Side
4. **Refrigerant Choice:** R-12 or 134a

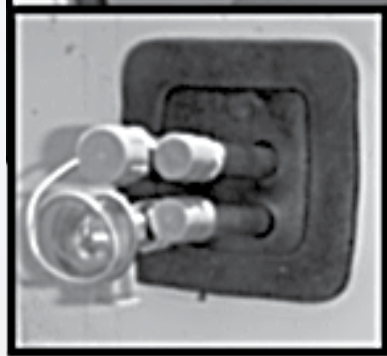

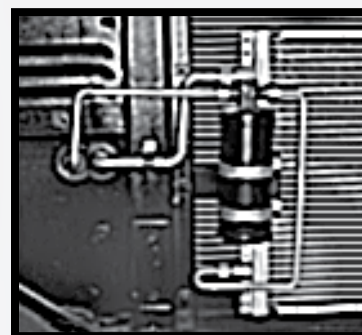

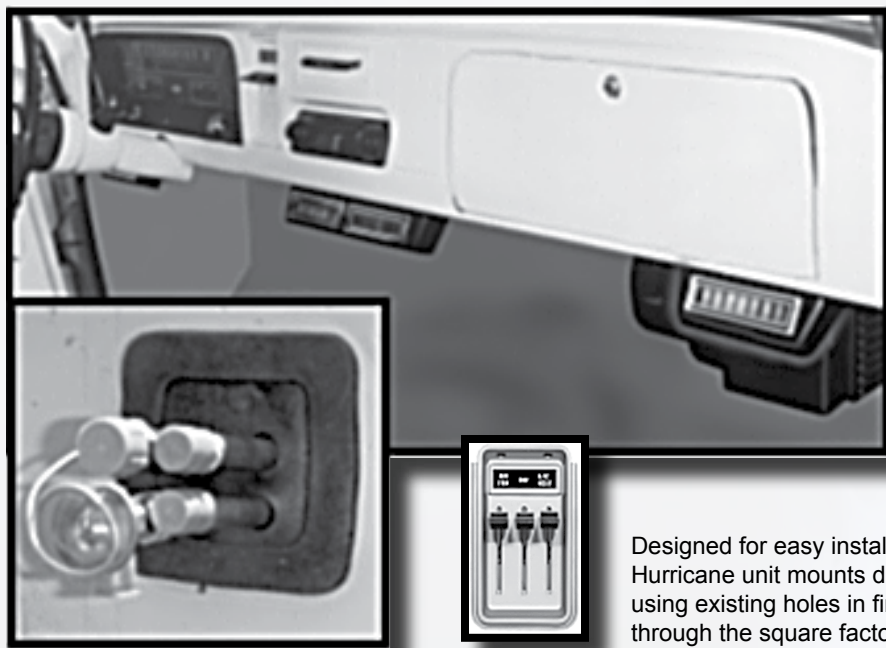

NOTE: Clean firewall version may require modifications to firewall and or kick panel area to complete installation. Recommended for trucks in early stages of construction, that have not been painted yet.

DON'T FORGET TO SHOW OFF YOUR TRUCK ONCE YOUR PROJECT IS COMPLETE!

1960-66 CHEVROLET PICKUP CUSTOM A/C, HEAT AND DEFROST SYSTEM

Designed for easy installation using existing factory firewall holes. Hurricane unit mounts directly to firewall with custom mounting plate using existing holes in firewall. A/C and heater lines route neatly through the square factory inlet hole with a custom rubber grommet.

A/C & heater system switching integrates neatly with factory lever style heater control on 1960-66 trucks, for 1964-66 trucks with economy heater (pull/twist heater control knob) a new deluxe lever control is included.

Rectangular louvers mount neatly along the bottom edge of the dash. Condenser assembly includes drier, custom aluminum lines and mounting brackets using factory radiator mounting locations.

- 1960-63 all w/2 lever factory heater control
Complete System CAP-6300S 1,065.00
- 1960-63 w/4 lever factory heater control
Complete System CAP-6300D 1,065.00

- 1964-66 w/Deluxe heater (lever style control) Switching integrates with original heater control
Complete System CAP-6600D 1,065.00
- 1964-66 w/Economy heater (pull/twist knob) Includes Deluxe Lever Heater Control
Complete System CAP-6600S 1,125.00

Optional System Upgrades

- Polished Compressor
- Chrome Drier
- 12" Elec Cond. Fan
- Fan Mounting Kit
- Cond. Fan Wiring Kit
- Water Pump Fan
- 16" Elec. Radiator Fan
- Trinary Switch Upgrade

Information Required to Order:

1. **Engine:** Size, Year, Make
2. **Water Pump Length:** Short or Long (Chevy V8 Engine)
3. **Compressor Mount:** Driver or Passenger Side
4. **Refrigerant Choice:** R-12 or 134a

NOTE: Clean firewall version may require modifications to firewall and or kick panel area to complete installation. Recommended for trucks in early stages of construction, that have not been painted yet.

1967-72 CHEVROLET PICKUP CUSTOM A/C, HEAT AND DEFROST SYSTEM

CAP-7200 Series with Underdash Louvers

- Dual Condenser Fans
- Single Condenser Fan
- Water Pump Fan

HOW DO YOU CHOOSE THE RIGHT HARNESS FOR YOUR TRUCK ?

If your truck is not among the specific vehicle applications mentioned in this catalog, one of our proven universal kits is your best choice. These kits are designed to be used on a wide range of vehicle types. All of our kits come ready to install. We've thought out the problems for you and designed these kits to be truly Painless. The 12 circuit kits will cover most basic wiring needs.

If your truck will have additional electrical accessories such as power windows, door locks or other creature comforts, you will want our 18 circuit harness. Remember that you may want to install these items some time in the future, so now is the time to provide wiring by installing our 18 circuit harness or by using a modular add-on harness. There is one other consideration that is important: Is your ignition switch on the steering column or in the dash? Use the designated "for GM steering column" for early style "keyed" steering columns from GM. All kits come with more than enough wire and terminals, etc. to do the job. You cut and route to suit your vehicle's needs.

UNIVERSAL CHASSIS HARNESSES

12-CIRCUIT UNIVERSAL GM KEYED STEERING COLUMN
Their 12 circuit kits can be used in just about any vehicle where basic wiring is needed. This kit includes GM (column mounted) ignition switch plugs pre-terminated and ready to install. Also included are pre-wired plugs for headlights and the dimmer switch.
10101 each. 322.00

18-CIRCUIT UNIVERSAL GM KEYED STEERING COLUMN
The 18 Circuit kit allows you to add accessories to the basic wiring such as power windows, door locks, etc. This kit includes GM (column mounted) ignition switch plugs and a GM (column mounted) turn signal switch plug pre-terminated and ready to install. Also included are pre-wired plugs for headlights and the dimmer switch.
10201 each. 365.00

12-CIRCUIT UNIVERSAL
This kit does NOT include the GM column mounted ignition switch plugs but includes the GM column mounted turn signal switch plugs and terminals.
10102 each. 338.00

18-CIRCUIT UNIVERSAL
This kit does NOT include the GM column mounted ignition switch plugs but includes the GM column mounted turn signal switch plugs and terminal.
#10202 each 375.00

GM & Universal Truck Harnesses

12 CIRCUIT GMC/CHEVY TRUCK HARNESS

#10112 - Designed for use on 1963-66 GM/Chevy pickups. This 12-circuit kit includes the following connectors pre-terminated to the harness: Wiper motor, dimmer switch, brake switch, wiper switch, headlight switch, horn, dash light sockets and warning light sockets. Kit also includes alternator pigtail with connector installed. Will work with single or dual dash turn signal indicator.

1963-66 GM/Chevy Pickup
10112 each.....425.00

18-CIRCUIT GMC/CHEVY TRUCK HARNESS

By adding a factory-style bulkhead connector and additional GM connectors we made our universal harness a custom fit for these popular GM/Chevy pickups. Nothing could make re-wiring your truck any easier. For 2X4 & 4X4 trucks. (For 1967-72 GM trucks with factory a/c also use #30901 see below.)

#10206 - 1967-72 Chevy/GMC Trucks 388.00

#10205 - 1973-87 Chevy/GMC Trucks 625.00

A/C HARNESS - CHEVY/GMC

#30901 - For 1967-72 use with chassis harness #10206 with factory air conditioning.

30901 each.....75.00

GM KEYED STEERING COLUMN UNIVERSAL TRUCK HARNESSES

Use in just about any pickup where basic-or-more wiring is needed. Ample wire lengths make this kit especially suited for trucks with long beds and extended cabs. This kit includes GM (column mounted) ignition switch plug and the GM (column mounted) turn signal switch plug pre-terminated and ready to install.

#10103 - 12-Circuit harness kit 445.00

#10203 - 18-Circuit harness kit 470.00

UNIVERSAL TRUCK HARNESSES

Can be used in just about any pickup where basic-or-more wiring is needed. Ample wire lengths make this kit especially suited for everything including trucks with long beds and extended cabs.

#10104 - 12-Circuit harness kit 444.00

#10204 - 18-Circuit harness kit 470.00

COLOR CODED, PREPRINTED WIRE

Wiring a car can sometimes be an intimidating project, but not with a Painless chassis harness. Open the box and the wire is already bundled in sections: front, rear, engine, etc. Simply mount the fuse block, start with one section of the car and route the wire. Each wire is printed with the application so you know right where it goes. To further ensure a painless installation, each chassis harness is color-coded for easy trouble-shooting.

OFF ROAD HARNESS

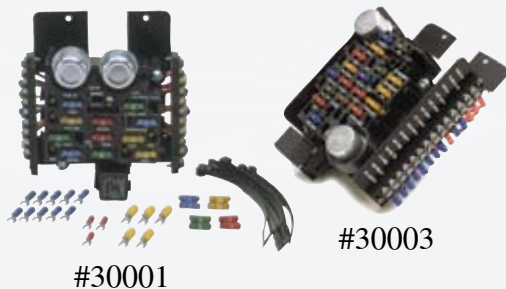

WEATHERPROOF CHASSIS WIRING HARNESS

The best wiring harness for rough off-road conditions just got better with the introduction of these three new weatherproof harnesses. On top of the already superior Painless design and materials, these tough new kits feature: weatherproof fuse block with clear O-ring-sealed cover, weatherproof heat-sealed crimp-on terminals, waterproof horn relay, machine crimped splices with weatherproof shrink tubing.

Universal - 12-Circuit Weatherproof Chassis Harness
 10140.448.00

FUSE BLOCKS

12 & 18 CIRCUIT UNIVERSAL FUSE BLOCKS

Use the 12-circuit OEM style pre-wired fuse block to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for the following circuits: air conditioning/heat, gauges/dash instruments, brake lights, headlights, coil, horn, dome light, radio, electric fan, turn signals, emergency flashers, wipers and alternator. 18-circuit fuse block is the same with additional circuits to wire power windows, door locks, and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminal, and full instructions. **Note: No wire with these kits.**

12- Circuit Fuse Blocks
 30001.123.00
 18-Circuit Fuse Blocks
 30003.188.00

PARK NEUTRAL RELAY KIT
 This kit uses the stock neutral safety switch to also provide for ECM park/neutral ground signal needed when installing factory-style fuel injection into older vehicles. For use with any aftermarket shifter or column mounted neutral safety switch.
 60122.50.00

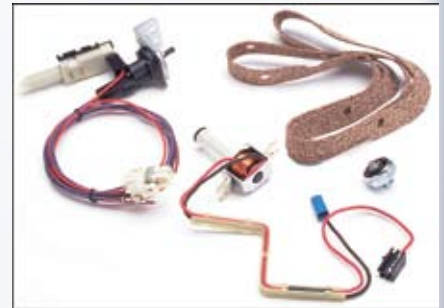

OXYGEN SENSOR FITTING

Weld-in oxygen sensor fitting for all fuel injection systems.
 60406.11.00

700R4 TRANSMISSION TORQUE CONVERTER LOCK-UP KIT

Now you can control the lockup converter on your overdrive transmission with your carbureted engine and not have to buy an expensive computer! With our easy to install Lock-Up Kit you don't need the computer or speed sensor. A vacuum controlled switch and a 4th gear pressure switch/lock up solenoid combination controls the lockup. Comes with everything to complete the job including a pan gasket. Fits any 700R4 GM transmission.
 60109.163.00

UNIVERSAL FUEL PUMP RELAY KIT
 A relay will prevent voltage drops at the pump thus maintaining constant fuel pump pressure, and will prevent fuel pump amperage overloads from damaging the electrical system. It's a good idea to relay your fuel pump for the street and a must when you're racing.
 50102.37.00

BRAKE LIGHT RELAY KIT
 When upgrading tail lights to the new higher wattage halogens, always use a relay. The Painless kit gives you everything you need to protect your wiring and switches.
 30105.23.00

REMOTE STARTER SOLENOID
 Allows you to position the starter solenoid any place you need to in order to make maintenance easier. Comes with extra wire and connectors to do the job right.
 30203.40.00

HOT SHOT

Designed to overcome starting problems due to an overheated GM style starter or worn out electrical system. Works by boosting amperage to the starter solenoid.

30202.28.00

HOT SHOT PLUS ENGINE BUMP SWITCH

This switch allows you to turn over the engine from the engine compartment for adjusting valves. It also overcomes starting problems due to an overhead starter or worn out electrical system by boosting amperage to the starter solenoid every time the vehicle is started.

30201.57.00

ADJUSTABLE ELECTRIC FAN THERMOSTAT KIT

This kit is designed to allow a wide range of temperature adjustments for your electric fan. A bulb at the end of the capillary tube is designed to probe or be attached to the top or hottest portion of the radiator. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete kit includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for over-all protection, wiring, terminals, and mounting hardware.

Specs on Adjustable Fan Thermostat:

- Temp range: -32 ° to 248 ° F
- Accuracy: +/- 7.3 ° F
- Differential: 7.3 ° +/- 3.6 ° F

Note: Temperature refers to the temp of the capillary tube, not the coolant temp.

30104.96.00

Adjustable Thermostat Kit Without Relay

30112.75.00

WEATHERPROOF ELECTRIC FAN RELAY KITS

For the harsh conditions encountered off-road, these relay kits provide complete protection from the elements and ensure reliable and dependable performance. These kits utilize heavy duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

Weatherproof Electric Fan Relay

30130.58.00

Weatherproof Electric Fan Relay with 200 ° On/ 185 ° Off Thermostat

30128.99.00

Weatherproof Electric Fan Relay with 185 ° On/ 170 ° Off Thermostat

30129.99.00

FAN-THOM ELECTRIC FAN RELAY

Designed as inexpensive protection for your electric fan. Provides constant voltage, protects form voltage and amperage spikes and keeps fan from feeding back through the system. An absolute necessity if adding an on/off switch to your electric fan circuit.

30101.32.00

JUNCTION BLOCK

The right solution for attaching large gauge wire connections.

80112.11.00

REPLACEMENT THERMOSTAT

(Sold separately if needed)

(200-180 degrees) 3011042.00

(185-170 degrees) 3011142.00

FAN-THOM II ELECTRIC FAN RELAY WITH THERMOSTAT PROTECTION

Don't want to probe your radiator? The Fan-Thom II comes with a threaded thermostat that screws into the engine block or manifold for a professional installation. Thermostat thread size: 3/8"-18NPTF fitting.

200 ° On/ 185 ° Off

COURTESY LIGHT KITS
 GM Kit includes: GM door switches, wires and light sockets to install courtesy lights inside your vehicle.
 30702.38.00
 Universal Kit includes: Universal door switches, wires and light sockets to install courtesy lights inside your vehicle.
 30710.38.00

For cable driven speedometers

For electric speedometer

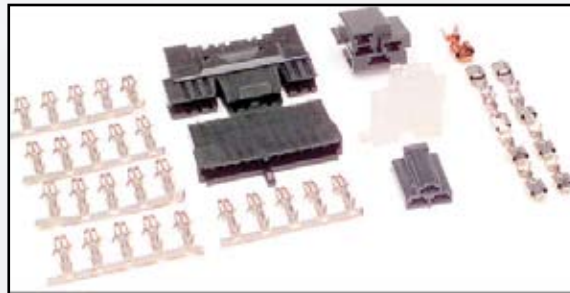

UNIVERSAL GAUGE HARNESS
 If you need to keep your under-dash area organized or you think that you need to remove gauges from time to time then you need to install our universal gauge harness. It will connect all major brand gauges including Auto Meter and VDO and works with most dash layouts and sizes.
 For cable driven speedometers
 30301.75.00
 For electric speedometer
 30302.80.00

HEI PIGTAIL
 Replacement pigtail for HEI distributor.
 30809.12.00

GM STEERING COLUMN AND DIMMER SWITCH PIGTAIL KIT
 Original factory connectors to replace worn out or damaged connectors for early GM keyed steering columns. GM color-coded wires are ready to connect into your existing harness. Includes: two keyed ignition switch pigtails, one turn signal pigtail with two connectors, one dimmer switch pigtail. Wire length: 12".
 30805.56.00

GM COLUMN CONVERSION KIT
 All the plugs and terminals for your early GM keyed steering column in one kit. Contains two ignition switch connectors, two turn signal connectors and one dimmer switch connector and terminals for each.
 30806.25.00

REPLACEMENT SWITCH KIT WITH IGNITION SWITCH
 One 3 position headlight switch, one floor mounted dimmer, two GM style grounding door jam switches, and one universal ignition switch with keys.
 80121.55.00

UNIVERSAL IGNITION SWITCH
 Dash mounted ignition switch with two keys.
 80153.14.00

New !

DIMMER SWITCH
 Floor mounted.
 80150.8.00

UNIVERSAL WINDSHIELD WIPER SWITCH
 Three position switch with on-off and windshield washer function.
 80173.27.00

FIBERGLASS BODY GROUND KIT
 For proper electrical grounding of any vehicles with fiberglass bodies.
 40026.41.00

GM STYLE JAMB SWITCH
 80170.4.00

REPLACEMENT SWITCH KIT
 Three position headlight switch, and floor mounted dimmer, and two GM style grounding door jam switches.
 80120.41.00

WHY USE URETHANE?

Production vehicles are built using rubber bushings in control arms, strut arms, leaf springs, body mounts, transmission mounts, sway bars and shocks. Additionally, rubber components can be found on coil spring pads, leaf spring pads and suspension bump stops. Not only are rubber components on the soft side to accommodate the typical car or truck buyer, but they tend to deteriorate rapidly. This contributes to premature failure, a "spongy" ride and less than ideal performance handling. Urethane can correct these conditions, while improving drivability.

DESIGNED TO FIT

PROTHANE'S™ design and engineering staff is dedicated to producing the highest quality urethane components on the market today. This goal is achieved through attention to detail, in house machining of master tools to exacting specifications and genuine appreciation for true performance. With all aspects of design and development under one roof, the design team, R&D department and master machinists are able to provide you with high quality parts that are designed to fit.

The total kit contains all the specific body rubber mounts and suspension rubber components needed to complete your truck.

All in One TOTAL KIT - Black Urethane

1963-66 Chevy/GMC 1/2 Ton 2WD

Includes body mounts, control arm rear bushings, tie rod boots, track arm rear bushings & transmission mounts.

7-2023 kit..... 177.54

1967-72 Chevy/GMC 1/2 Ton 2WD

Includes body mounts, sway bar bushings, tie rod boots, track arm rear bushings & transmission mounts.

HIDDEN DOOR HINGE KIT
 Why pay more for less when you can get the best kit available. Made only from high quality steel. It features a fully bushed one piece swing arm with a 3/8" ground shoulder

bolt hinge pin. This combination ensures reliability and strength. It is pre-aligned and welded to 1" square tubing making the installation process faster and easier. All hinge kits come complete with mounting hardware, recess pockets for two doors, extra bracing and installation instructions.

HK 001 each 225.00

MINI BEAR CLAW LATCH
 Includes adjustable striker and installation plate. Sold each.

MBC 003 21.95

MINI BEAR CLAW LATCH KIT
 Includes striker bolts and installation kit. Sold in pairs.

MBC 004 48.95

SLIM LINE DESIGN LATCHES
 Bear Claw Latches for narrow doors and window clearance. 3/4" thick, 1 1/4" wide, and 3 7/8" long. Made from 14 gauge steel, these installation kits simplify installing bear claw latches. The latch door panels come pre-stamped to fit the Slim Line Latches. The cage nut striker allow up to a 1/2" adjustment, aiding door alignment. Installation kit includes 2 latch plates and 2 striker plates.

Slim Line Latches with Installation Kit
 BCS 003 80.00

SLIM LINE MANUAL LATCHES
 Bear claw latches with manual safety locks. Striker bolts included. Sold in pairs.

BCS 06 75.00

POWER BEAR CLAW
 Eliminate your door handles with a new Power Bear Claw Latch. Open your door inside or outside with button or keyless entry. Comes with strikers, installation bolts and 5 pole switch. Sold in pairs.

BP 002 each 95.00

SLIM LINE POWER
 Bear claw latch with power locks. Striker bolts included. Sold in pairs.

BCP 001 110.00

POWER WINDOW SWITCH
 Use with your original handle. No relays needed. Touch the window crank and the window automatically rolls up or down. Fits Chevy or Ford®. Sold in pairs.

PWS 01 124.95

TILT HOOD LIFT
 This motorized unit will extend 8 to 12 inches and lift up to 250 lbs. Good for trunks, hoods, or tilt front ends.

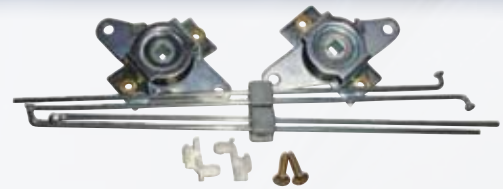

HTL 01 225.00

BEAR CLAW LATCHES

Dual rotary latch kit with four bolt hole pattern or the single latch kit with three hole bolt pattern. Includes 2 latches, strikers and mounting bolts. Large latch is 4 1/2" long x 1 3/4" x 3/4" thick. Medium latch is 3 1/2" long x 1 1/2" wide x 5/8" thick.

13" Brake

CHEVY PICKUP

CUSTOM IFS

TCI custom IFS units caster and camber adjustment is made simple with adjustable stainless eccentrics.

Every plain IFS features: Crossmember, 1" upper and 1-1/8" lower tubular A-arms, new manual rack & pinion steering gear (power rack available), 11" disc brakes, adjustable billet coil-overs with black powder coated springs (optional chrome), and anti-roll bar. Available with black powder coated A-arms, and polished billet shock and-chrome springs.

Custom Show IFS features: Polished stainless A-arms, chrome steering arms, chrome spindles, chrome anti-roll bar, chrome hiem links, and polished billet coil-overs.

Plain IFS comes with GM brakes, show IFS comes with custom 11" brakes with optional 12" brakes, and 6-piston 13" brakes. Available with optional billet air spring, Rotor, spindles and brake units come assembled with bearings packed with hi-temp grease.

Because the new **GEN-II** Technology incorporates so many revolutionary ideas and features, we get some frequently asked questions from customers. And, we hear some unfortunate disinformation coming from other "air conditioning companies". Here's what you need to know when buying a Vintage Air System.

Are the Gen-II Systems really different?

Vintage Air is the only performance air conditioning company that designs and manufactures ALL of their products with industry standard Pro Engineering CAD/CAM systems. Rather than trial and error or repackaging ten year old product designs, they continually refine existing systems and develop new systems to deliver true climate control such as you would find in the finest production automobiles. In fact, they provide the climate control system for some of the worlds finest car makers!

What is the point of using servo motors?

Servo motors are not simply on-off electric switches found in some aftermarket A/C systems. They are variable position solid-state devices used reliably on high-end OEM systems for years. Servo motors in properly designed systems can deliver much greater air door travel. This allowed us to design from scratch with tremendous volume increases in all three of the new Gen-II systems. Conventional vacuum operated air doors simply do not open far enough to flow as much air as the Gen-II's.

Servo's are not cheap. Nor are they just a bolt-in change. That is why no other company offers them, and why they try to discourage customers from wanting a servo system. When combined with the exclusive solid state circuit board controls, the Gen-II servo's can give you the most infinite adjustments for "Just Right Temperature" in any weather or location.

Can the case design make that much difference?

All you have to do is see the "virtual" flow testing they perform on the engineering computer work stations to understand. They can test, refine, and retest the most minor case design changes or components until they are satisfied that the system is delivering everything it has got - before they even build a proto-type. They then install a system into one of the R&D hot rods and drive it thousands of miles - before you ever buy one for your own hot rod. Just like the professional race teams, they know winning is in the smallest details!

Can the Gen-II deliver better defrost too?

One of the most important design ideas they learned with their in-house CAD engineering program was how to design for optimum dehumidified defrost mode. Clearing the fog from your windows on a mild, yet humid day is a snap with the new Gen-II systems.

Do I have to be a computer programmer?

While the new electronic controls and servos are state-of-the-art, the Gen-II systems are actually easier to install than old conventional type systems. No cables to route through the firewall because the heater valve is also servo controlled. No linkages to adjust because the controls are solid state circuit boards. And, you can mount the control panel almost anywhere in the car. Simply plug and play.

What about high horsepower engines?

The new Gen-II systems do not need engine vacuum. All functions are controlled with electronic servos so your climate control will not be affected even when you're powering up a mountain pass.

Why is the warranty three years?

Since the original day they sold their first system back in 1976 they have always gone the "extra mile" to satisfy customer needs. Ask any Vintage Air owner. The fact is, when installed as directed, Vintage Air systems have less than one tenth of one percent defects! They could offer a longer warranty, but in their 26 years of experience, they tell us that in the very rare times a part has failed, it has failed in the first few months of operation. There are thousands more Vintage Air systems on the road today that all other brands combined. They are the industry standard!

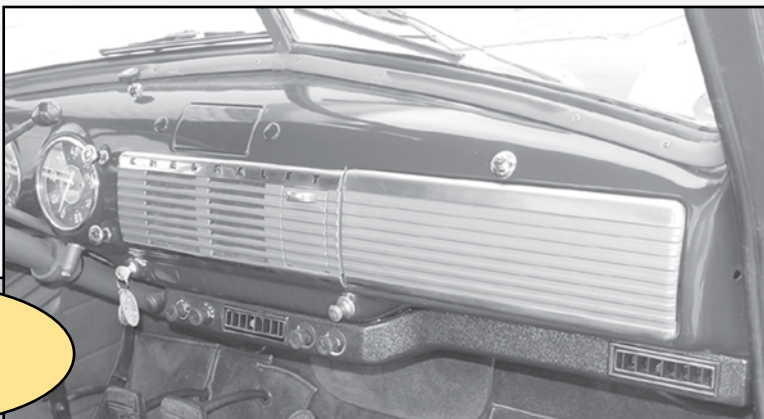

The most important part of any warranty is the reputation and longevity of the company which stands behind it.

1947-55 CHEVY/GMC TRUCK

Gen-II SURE FIT SYSTEM

Gen-II Sure Fit air conditioning, heating and defrost systems for '47-55 Chevy/GMC trucks are designed specifically for each application. Get true bi-level air flow and OEM quality "just right temperature" control.

Gen-II Technology System!

1947-55 Gen II Chevy/GMC Truck-Sure Fit System Features:

- Electronic Servo Motor Controls, Including Heater Valve
- Mounts Completely behind dash
- A/C exits thru dash or side vents
- Floor or dash exit heat
- Dehumidified defrost
- Compatible with optional Gen-II proline controls

The All-In-One Gen-II kit for your Truck!

COMPLETE KIT: Original deluxe control assembly in your dash connects to and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling or fabrication. It comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness, condenser & drier package (condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware) and a complete set of installation instructions.

1947-55 Chevy/GMC Truck Complete Kits
 for 134a Refrigerant.....**74044-LCU-A \$1,095.00**
 for R-12 Refrigerant.....**74044-LCU \$1,095.00**
Polished Compressor Upgrade - Add \$50.00 to cost

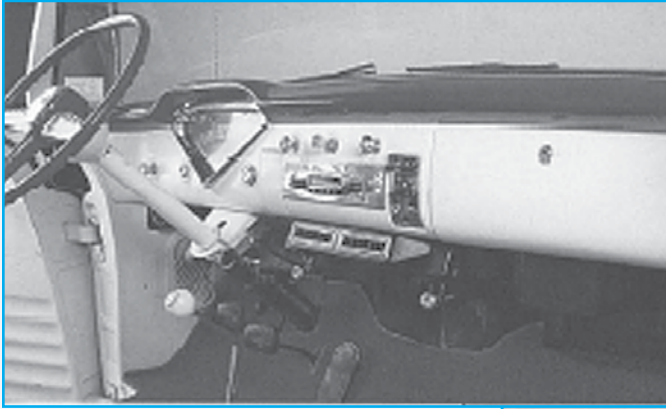

Vintage Air Sure Fit system evaporators install completely inside the cab for a clean, original looking engine compartment. Firewall plate mounts to original holes.

1955-59 CHEVY/GMC TRUCK

Gen-II SURE FIT SYSTEM

Vintage Air Sure Fit air conditioning, heating and defrost systems for the Classic Chevy's are designed specifically for each application. They match the coil and blower to give you the maximum amount of comfort in your truck. Factory deluxe controls are used.

1955-59 Gen II Chevy/GMC Truck Sure Fit System

Features:

- Mounts Completely behind dash
- A/C exits at dash
- Floor exit heat
- Dehumidified defrost
- Smooth firewall

The All-In-One Gen-II kit for your Truck!

COMPLETE KIT: Original deluxe control assembly in your dash connects to and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling or fabrication. It comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness, condenser & drier package (condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware) and a complete set of installation instructions.

1955-59 Chevy/GMC Truck Complete Kits

for 134a Refrigerant.....74045-LCU-A \$1,095.00
for R-12 Refrigerant.....74045-LCU \$1,095.00

Polished Compressor Upgrade - Add \$50.00 to cost

OPTIONAL UPGRADE
Replacement Control
Panel # 49755-LCI \$150.00

1960-72 CHEVY/GMC TRUCK

Gen-II SURE FIT SYSTEM

Vintage Air Sure Fit air conditioning, heating and defrost systems for '60-72 Chevy trucks are designed specifically for each application. They match the coil and blower to give you the maximum amount of comfort in your vehicle, greater air flow than your OEM system provided, and still retain the factory look inside your vehicle. Your factory controls are used.

1960-72 Gen II Chevy/GMC Truck Sure Fit System

Features:

- Mounts Completely behind dash
- A/C exits thru dash vents
- Floor exit heat
- Dehumidified defrost
- Smooth firewall

The All-In-One Gen-II kit for your Truck!

COMPLETE KIT: Original deluxe control assembly in your dash connects to and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling or fabrication. It comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness, condenser & drier package (condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware) and a complete set of installation instructions.

1960-63 Chevy/GMC Truck Complete Kits

for 134a Refrigerant.....74060-LCU-A \$1,095.00

for R-12 Refrigerant.....74060-LCU \$1,095.00

1964-66 Chevy/GMC Truck Complete Kits

for 134a Refrigerant.....74065-LCU-A \$1,095.00

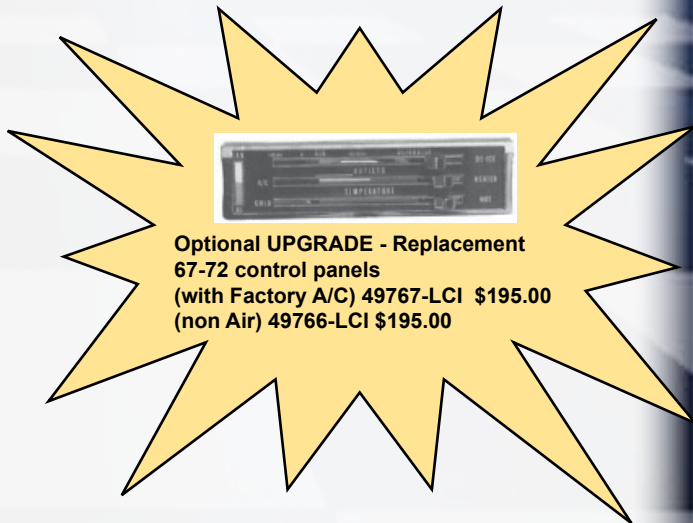

for R-12 Refrigerant.....74065-LCU \$1,095.00

1967-72 Chevy/GMC Truck Complete Kits

for 134a Refrigerant.....74067-LCU-A \$1,095.00

for R-12 Refrigerant.....74067-LCU \$1,095.00

Polished Compressor Upgrade - Add \$50.00 to cost

Optional UPGRADE - Replacement
67-72 control panels
(with Factory A/C) 49767-LCI \$195.00
(non Air) 49766-LCI \$195.00

1973-80 CHEVY/GMC TRUCK

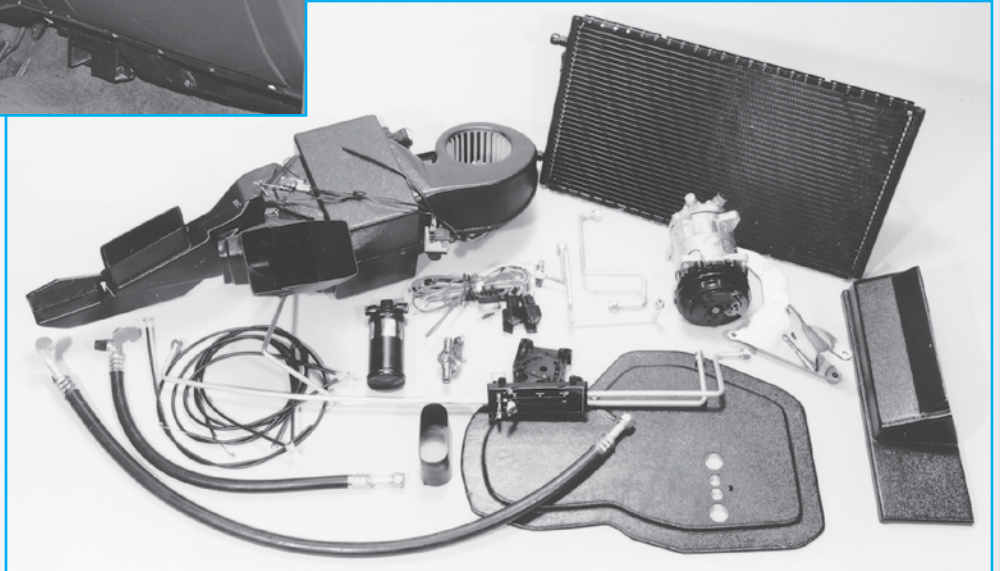

Gen-II SURE FIT SYSTEM

Vintage Air Sure Fit air conditioning, heating and defrost systems for '73-86 Chevy/GMC trucks are designed specifically for each application. They match the coil and blower to give you the maximum amount of comfort in your vehicle, greater air flow than your OEM system provided, and still retain the factory look inside your vehicle. Your factory non-air system heater controls are used.

1973-80 Gen II Chevy/GMC Truck Sure Fit System Features:

- Mounts Completely behind dash
- A/C exits thru dash vents
- Floor exit heat
- Dehumidified defrost
- Smooth firewall

The All-In-One Gen-II kit for your Truck!

COMPLETE KIT: Original deluxe control assembly in your dash connects to and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling or fabrication. It comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness, condenser & drier package (condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware) and a complete set of installation instructions.

1973-80 Chevy/GMC Truck w/o Factory Air

for 134a Refrigerant.....74173-LCU-A \$1,095.00
for R-12 Refrigerant.....74173-LCU \$1,095.00

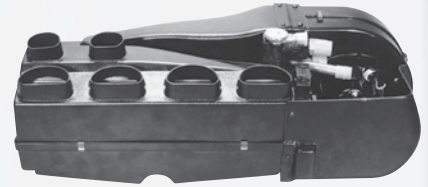

1973-86 Chevy/GMC Truck with Factory Air

for 134a Refrigerant.....74180-LCU-A \$1,095.00
for R-12 Refrigerant.....74180-LCU \$1,095.00

Polished Compressor Upgrade - Add \$50.00 to cost

NOTE: This kit uses your Original Controls.
No accessory controls available.

GEN-II SUPER COOLER

Gen-II Super Cooler Systems

Come complete with:

- Evaporator and Mounting Brackets
- Wiring Harness
- A/C Duct Hose
- Drain Kit
- Heater Control Valve
- Defrost Option Includes Hoses and Ducts

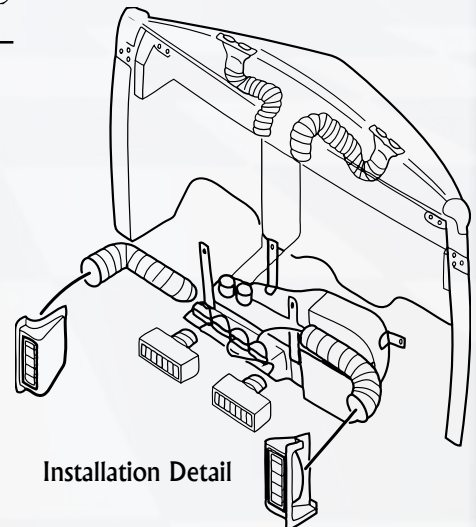

Choose In-Dash or Under-Dash Controls

Gen-II Systems available with our new 4-Lever dash mounted control panel. Horizontal or vertical style are both available.

4-knob pod for under dash or hidden control installation.

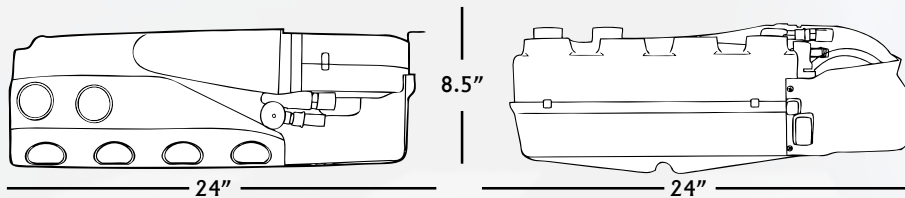

Installation Detail

THE ABSOLUTE PERFORMANCE LEADER! State of the art GEN-II servo motor control technology is now incorporated into the most popular heat and cool system. Amazing performance is achieved with the GEN-II Super's new "D" shaped air outlets. As an added benefit, you can position all 4 louvers wherever you need them. The ideal system for the largest sedans or wagons. Features true bi-level operations in cool and heat modes and a more powerful dehumidified defroster mode. **Now features servo-actuated adjustable heater valve.**

Gen-II Technology Benefits:

- High torque screw-drive servo motors control all butterfly airflow doors.
Increased travel on these doors allows much greater airflow.
Immediate response to control input and superior door sealing over vacuum controls.
- No reliance on engine vacuum - important with high performance engines.
- Re-engineered heating/cooling coil.
Increases cooling capacity by over 20%, and heating capacity by over 100%.
- Re-engineered and computer aided design to evaporator case.
Optimized internal case design allows significant airflow volume increases.
Increased capacity and control of dehumidified defroster airflow.
Blower fan motor isolated on rubber mounts for quiet running and longer life.

GEN-II MINI UNIT

Get the Same Capacity as the Original Compac Unit in a Smaller Size!

NEW! GEN-II TECHNOLOGY FOR THE SMALLEST CARS AND TRUCKS!

State of the art Gen-II servo motor control technology is now incorporated into the smallest heat and cool system. All new CAD designed case allows more capacity and air flow that the original Compac system. The ideal system for trucks and small hot rods. This features true bi-level operation in cool and heat modes and a more powerful dehumidified defroster mode. Also features exclusive servo-actuated adjustable heater valve.

Gen-II Super Cooler Systems

Come complete with:

- Evaporator and Mounting Brackets
- Wiring Harness
- A/C Duct Hose
- Drain Kit
- Heater Control Valve
- Defrost Option Includes Hoses and Ducts

Gen-II Technology Benefits:

SLIM LINE UNIT

Slim Line Systems

Come complete with:

- Under Dash Evaporator with Mounting Brackets
- Controls
- Drain Kit

SLIM LINE UNDER DASH SYSTEM

Heat, Cool, & Defrost

11300-VUZ-A. 325.00

Heat, Cool, & Defrost with Black Louvers

11400-VUZ-A. 325.00

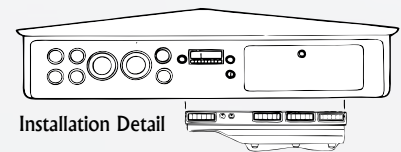

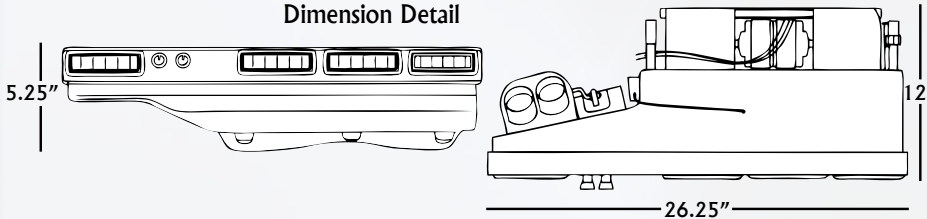

SIMPLE BELOW DASH MOUNTING! This system has been engineered by Vintage Air with a matched blower motor and blower wheel to provide greater cooling capacity and air delivery than any other under dash unit on the market.

Controls - Built-in rotary knob controls.

Mounting - Under dash mounting doesn't disturb any of the behind-the-dash components such as radios or original heating systems.

Quality Control - Vintage Air's complete in-house engineering, design, and production facility ensure that you get a well designed, tested, and proven system because we control quality at every step.

MINI SLIM LINE UNDER DASH SYSTEM

Cool only. Passenger side fittings.

10301-VUY-A. 272.00

Cool only. Passenger side fittings with black louvers.

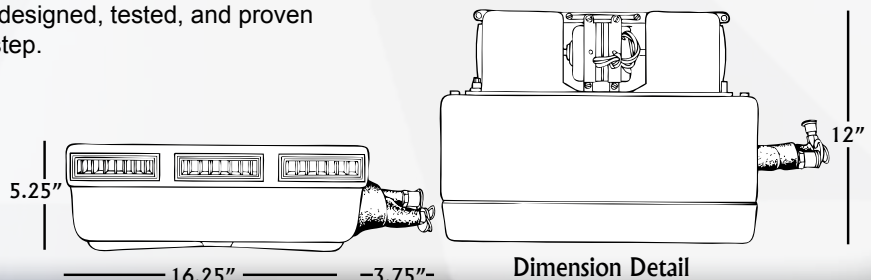

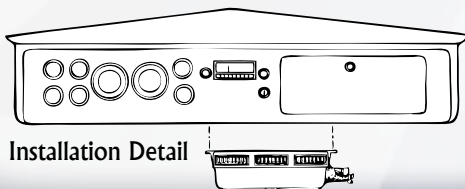

10401-VUY-A. 272.00

SMALLEST BELOW DASH UNIT - A simple solution to A/C installation. This system has been engineered by Vintage Air with a matched blower motor and blower wheel to provide exceptional cooling capacity and air delivery. Choose driver side or passenger side connections.

Control - Uses standard under dash control pod.

Mounting - Under dash mounting doesn't disturb any of the behind-the-dash components such as radios or original heating systems.

Quality Control - Vintage Air's complete in-house engineering, design, and production facility ensure that you get a well designed, tested, and proven system because we control quality at every step.

HEATERS

ALL NEW DESIGN! Bi-level system provides superior performance from Superflow coil technology and improved case design. New single cable/switch control operates both air door actuation and fan speed. Cable operated door now allows blending of heat between floor and ducts which can be used for defrost or with under dash vents in roadsters.

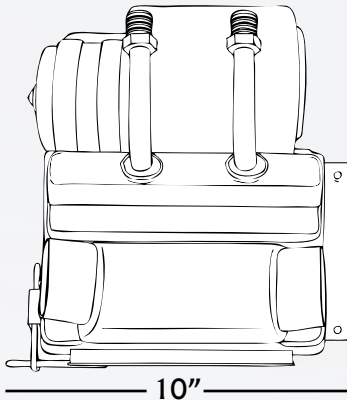

Heater Systems

Come complete with:

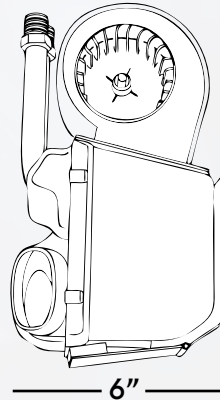

- Three Speed Blower
- Electric On/Off Water Valve
- Rotary Controls and Wiring Harness
- Includes Defrost Hoses and Ducts

STREAMLINE II PANEL
 4.23" wide x 2" tall - Internally lighted.
 49600-VUQ 119.00

STREAMLINE PRO-PANEL
 5.5" wide x 2.5" tall - Back lighted knobs.
 49500-VSQ 139.00

4-LEVER PROCAST FINGERTIP CONTROL PANEL
 Now you can have true OEM style louver air temperature regulation and bi-level operation of A/C and heat modes! This new panel uses our exclusive servo actuated heater valve which allows the introductions of small amounts of heat to regulate air temperature. Simplified installation with plug-in connections, no vacuum lines, and fewer wires to route. The face is slightly larger to allow you to upgrade from your existing Proline Panel installation. Both are internally lighted.
 4.63" wide x 2.44" tall
 49110-SHQ 40.00
 2.44" wide x 4.63" tall
 49321-SVQ 40.00

The COBRA advantage!

All Walker Radiators have the Cobra advantage. Cobra is manufactured from copper and brass. Copper has been and will be for the foreseeable future, the ultimate for heat transfer, long lasting durability and is repairable if needed.

NOT JUST A LOUVERED FIN. Cobra's fin is designed for maximum cooling efficiency. There are louvers at each fin crossing. These louvers are computer designed and manufactured to a precise angle and length. Their location and angle on each fin is designed to eliminate air boundary build-up (a layer of air that insulates fin material from air flow).

The distance between each tube (Fin height) is precisely 1/4". This 1/4" fin height measurement is unique in that it allows for the additional number of fins and tubes through Cobra's core area and is manufactured exclusively by Walker. Also, Cobra's fin height is computer controlled to give a uniform bond between the tube and fin area. This uniform bond is essential for maximum heat transfer and strength to withstand vibrations.

Cobra's fin count is 17 (Z-series 12), which means there are 17 heat transfer fins in every vertical inch of Cobra's core surface. This fin count is unmatched in number.

Cobra is also considerably thinner than other street rod radiators on the market. Its unique design requires less cubic inches for maximum cooling efficiency. This allows for additional fan clearance in the engine compartment.

Cobra's superior design and unsurpassed quality provides a cooling system required for today's high performance engines.

Things you should know about Walker Radiators

ALL TOP QUALITY MATERIAL

Complete with all connections

Ready to bolt to your application

Each assembly comes complete with the following standards:

Designed to operate with a 15 lb. to an 18 lb. cap.

Top tanks are stamped from .040 deep draw Brass.

Pre-drawn heavy (12 Ga.) steel rod holder with threaded holes for all attachments.

Brass drain cock for easy draining.

Oil cooler for automatic transmissions.

(Fitting size is 1/8" pip thread). Line fitting kits are available separately.

Heavy gauge steel side brackets.

Simple bolt in application.

No alterations to grill or grill shell needed.

Guaranteed to cool.

AIR CONDITION MODELS:

Condenser compatible for use with Freon R-12 and R-134a refrigerant.

Easy condenser to compressor-evaporator hook ups.

Condenser fitting sizes are #6 and #8 o-ring designs.

Securely mounted for long lasting durability.

Which Walker radiator is best suited for your application ?

Cobra Standard Series: Designed for basic small block engine applications that are stock throughout (not modified and not bored). Complete with pressure system and an oil cooler for your automatic transmission.

Cobra Standard Cool Mate Series: The same power as the Cobra Standard Series with transmission oil cooler, and air condition condenser for stock engine applications.

Cobra Z-Series: The ultimate in cooling system radiators. Born to cool the massive boss big block engines, this design radiator is a must for ultra heavy duty applications.

Cobra Z-Series Cool Mate Series: The same cooling power as the Z-Series with all the extras needed for modified air conditioned supplied engines.

NOTE: Modified engines must use the Z-Series radiators. The Cobra Standard Series radiators are **NOT DESIGNED TO COOL** any engine that has been **BORED**. Also big block Chevrolets, big block Fords®, Ford® flatheads, big block Mopars, 400 small block Chevrolets and anticipated hot running applications such as **SUPER CHARGED** engines required the **COBRA Z Series radiators**.

COBRA STANDARD SERIES RADIATORS

Cobra Standard Series: Designed for basic small block engine applications that are stock throughout (not modified and not bored). Complete with pressure system and an oil cooler for your automatic transmission.

Watson's StreetWorks

OVAL BRAKE & CLUTCH TRIM

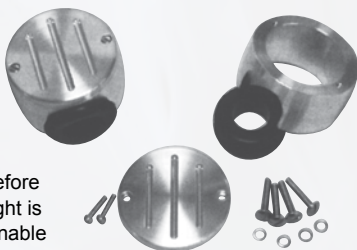

For elongated or rectangular pedal shafts. Also trim the firewall for accelerator cable and kick down or for some TPI applications. 2 1/4" diameter. 5/8" by 1 1/8" hole. Solid machined part or our Split 'n' Pinned trim. Stainless steel screws. Rubber gasket.

- B02 (Solid) 15.95
- B02S (Split 'n' Pinned)..... 19.95

BILLET WIRE PORT

Dress up the firewall where the wiring harness goes through. Main body is 2" diameter by 1 1/2" inside diameter. Secures to the firewall with 4 truss head screws. A 1" by 1/32" deep cutout in the body allows the wire bundle to exit close to the firewall. Rubber grommet included for smaller wire bundles. Cover has 3 ball-milled grooves. Allows the wire bundle to be installed before the final attachment of the Wire Port. Overall height is 1 3/16". Attractive, functional and at a very reasonable price. Photo shows assembled Port to upper left and parts to lower right.

- B16 each 40.00

PASS THROUGH TRIM

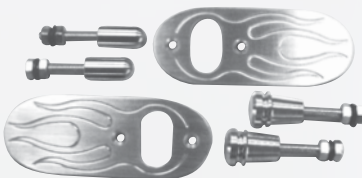

For wire bundles, harnesses, cables, etc. Insulated rubber grommet with 5/8" inner diameter. Overall size is 2 1/4" outer diameter. Solid aluminum piece. Stainless steel screws

- B05 (solid) 15.95
- Split 'n' Pinned version that was designed specifically for use with the Howell Engineering TPI and TBI harnesses. Smaller #4 screws are closer to the outer edge to cover a hole up to 1 5/8" wide.
- B01ST (Split 'n' Pinned)..... 19.95

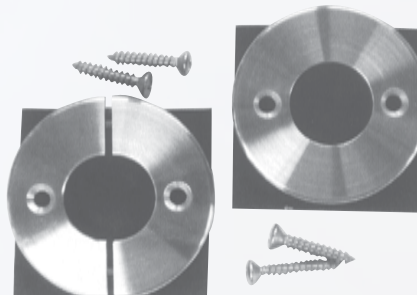

FLAMED TRIM NEAT NOBS

Hot Flames! Plates are 1 5/8" high by 4 1/4" long. Stainless screws. Choice of Smooth or Turned Nobs. Single door kits also available. Due to the plate width, their "remote" installation kit is required (except for use in suicide style doors) and is included in price shown, except where noted.

Small Bear Claw Latches not pictured.

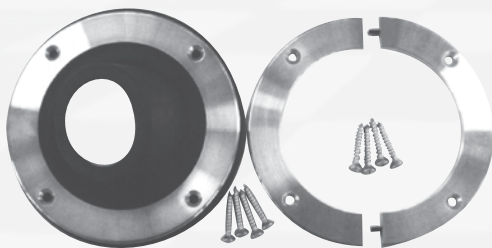

- B14FMS (Smooth Nobs w/o latches) 70.00
- B14FMT (Turned Nobs w/o latches) 70.00
- B14FMSL (Smooth Nobs w/ latches and strikers)..... 115.00
- B14FMTL (Turned Nobs w/ latches and strikers) 115.00
- B14FM-PLT (Flame Trim Plate only w/Screws, each) 20.00
- B14FMSX ("FMS" w/o remote install kit)..... 52.00
- B14FMTX ("FMT" w/o remote install kit) 52.00

ROUND BRAKE & CLUTCH TRIM

For round pedal shafts. Fits floor dimmer switch. Use around wire, hoses, harnesses, etc. 2 1/4" diameter with a 1 5/16" diameter hole. Stainless steel screws. Rubber gasket (not in photo) Solid machined part our their Split 'n' Pinned.

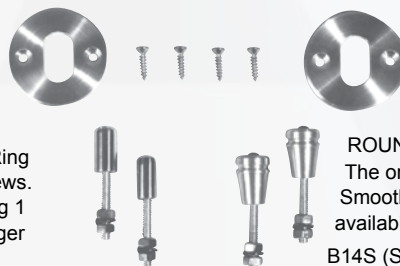

- B01 (Solid) 15.95
- B01S (Split 'n' Pinned)..... 19.95

STEERING COLUMN TRIM

Easy install Split 'n' Pinned design - no column removal required. Ring is 3.420" inner diameter, 4.800" outer diameter. Stainless steel screws. Rubber seal has an opening to fit GM and other columns measuring 1 3/4" to approximately 2 1/8" diameter. (Trimming is required for larger diameters.)

- B03 each 35.00
- B03S (Rubber Seal Only) 20.00
- B03R (Aluminum Ring w/Screws, No Seal)..... 20.00

ROUND TRIM NEAT NOBS

The original round trim plate is 2 1/4" in diameter. Smooth or Turned Nobs. Single door kits also available.

- B14S (Smooth Nobs w/o latches) 44.95
- B14T (Turned Nobs w/o latches) 44.95
- B14SL (Smooth Nobs w/ latches and strikers) 89.95
- B14TL (Turned Nobs w/ latches and strikers) 89.95

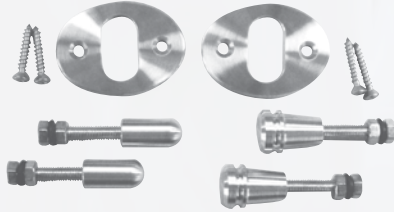

Watson's StreetWorks

THE "Q" BILLET INTERIOR DOOR HANDLES
No Question about the Quality and they are

Quite attractive, too. StreetWorks "Q" makes Quick work of releasing bear claw or original handles with over 1" of pull travel. 3 1/8" wide 1 5/8" high by about 1/2" thick not including the "trigger". Blind fastened from the back. Two 4-foot "easy pull" cables, cable clips, compression sleeves and hardware included.

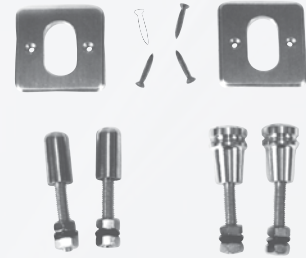

B18 pair99.00

OVAL TRIM NEAT NOBS

The trend in interior design - oval. Plates are 1 5/8" high by 2 1/4". Smooth or Turned Nobs. Stainless screws. Single door kits also available.

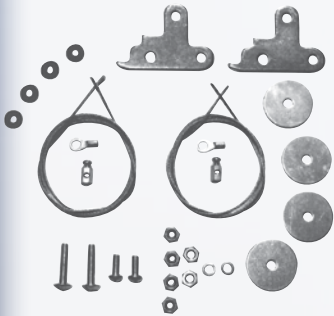

- B14OVS (Smooth Nobs w/o latches) . . . 49.95
- B14OVT (Turned Nobs w/o latches) . . . 49.95
- B14OVSL (Smooth Nobs w/ latches and strikers) 94.95
- B14OVTL (Turned Nobs w/ latches and strikers) 94.95
- B14OV-PLT (Oval Trim Plate only w/Screws, each) 18.00

SQUARE TRIM NEAT NOBS

1 3/4" square trim plates. Match the look of billet power window switch plates. Smooth or Turned Nobs. Stainless screws. Single door kits also available.

- B14QS (Smooth Nobs w/o latches) 49.95
- B14QT (Turned Nobs w/o latches) 49.95
- B14QSL (Smooth Nobs w/ latches and strikers) 94.95
- B14QTL (Turned Nobs w/ latches and strikers) 94.95
- B14Q-PLT (Square Trim Plate only w/Screws, each) 18.00

NEAT NOB REMOTE INSTALLATION KIT

Allows you to install StreetWorks Neat Nobs away from the latch and door jam, forward on the door. "T" lever bell crank and cable are used to attach to the latch. Same downward push on the nob trips the latch. Two 30" long cables. Works in either steel or fiberglass cars. All hardware included. Detailed drawing and instructions.

B14R (for 2 doors)..... 17.95

TILT SWITCH

Turns on lights in your glove box, trunk, or under-hood. When it tilts, the light comes on. 1/2" square x 1" long. Industrial adhesive for mounting.

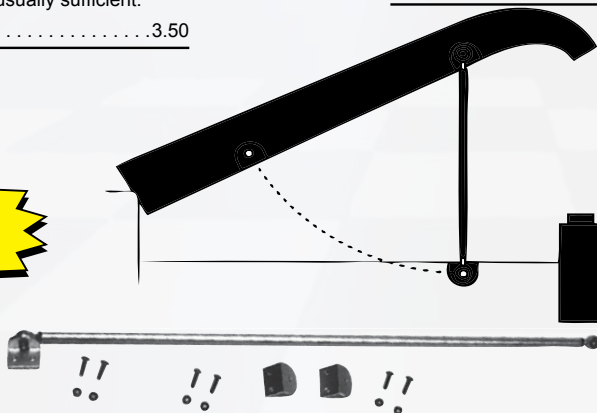

- Tilt Switch only (1/2 amp max) 19.95
- L02 each 19.95
- Tilt switch with lamp/bracket. Screws & connectors for a ready-to-install Trunk/Hood kit L03 each 24.95

LED DUMMY LOAD

This "dummy load" wires in parallel with the LED to add the necessary amperage draw. One dummy load per side is usually sufficient.

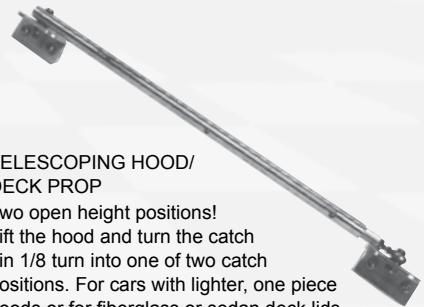

L52DL each 3.50

SOLID ROD HOOD PROP

For '37 and later models with one piece hoods but can be fitted to many applications. Aluminum rod and brackets. Stainless steel quick release pin and hardware. Positive locking in the up or down positions (wind proof). Attractive satin finish, approximately 24 3/4" center to center.

- B13 each 79.95
- B13SSQRP (Replacement Quick Release Pin) 20.00

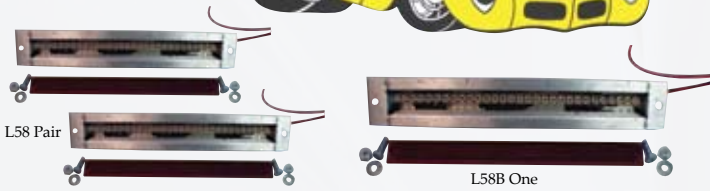

TELESCOPING HOOD/ DECK PROP

Two open height positions! Lift the hood and turn the catch pin 1/8 turn into one of two catch positions. For cars with lighter, one piece hoods or for fiberglass or sedan deck lids. Aluminum rod, tube and brackets. Stainless steel hardware Three position brackets. Threaded spherical rod end for adjustment. Firewall mount lower bracket. Approximately 14 1/2" long center to center when closed, 19 1/4" center to center half open and 24 1/4" center to center fully opened.

B13T each 79.95

Watson's StreetWorks

RECTANGULAR FLUSH MOUNT TAILLIGHTS OR 3RD BRAKE LIGHTS

60 Super Bright Red LED strips inside aluminum housings. 1/4" thick build-in, flush mounted red acrylic lenses with prismatic diffusers - can be fit into curved fenders, roll pans and pickup bed corners up to 1/4" for a seamless look (the acrylic lenses cannot be bent). Taillights have dual intensity for taillights and turn-brake lights. The 3rd Brake Light is single, full intensity. Need only 1" of clearance space behind the mounting surface. Weld-in or glass-in studs for mounting are included. Quality instructions. Lenses are only 1/2" wide by 15 1/4" long. Please note that these are build-in kits requiring body working skills.

Taillight Hot Slots L58 pair	195.00
3rd Brake Light Hot Slots L58B one	95.00
Need lenses for your own project? They include the shaped red lens and bonded clear diffuser.	
L58-LENS each	30.00

Please Note:

LED taillights are directional and must be mounted pointing straight back (horizontal). They also draw very little amperage, generating lots of light with very little heat, but may need an electronic flasher or dummy loads to work properly. Please call with any questions.

As installed - a beautiful flush mounted finish, paint-to-lens, clear coat to finish and seal.

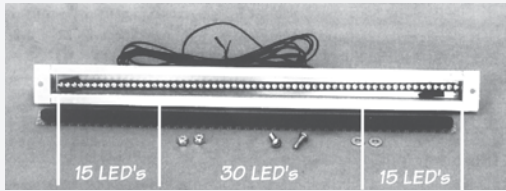

SEQUENTIAL LED TAILLIGHTS!

A real attention getter! Their L58 taillights, but three steps better. Each light is split into three groups of 20 LED's that sequence inside-out with the turn signals. Brake lights quickly sequences once then all stay on. All the necessary converters and sequencing modules are included along with great instructions.

L58-SEQ each	299.00
------------------------	--------

3 groups of 20 LED's in each taillight sequence inside-out with the turn signals, once when the brakes are applied.

3RD BRAKE LIGHT WITH TURN SIGNALS

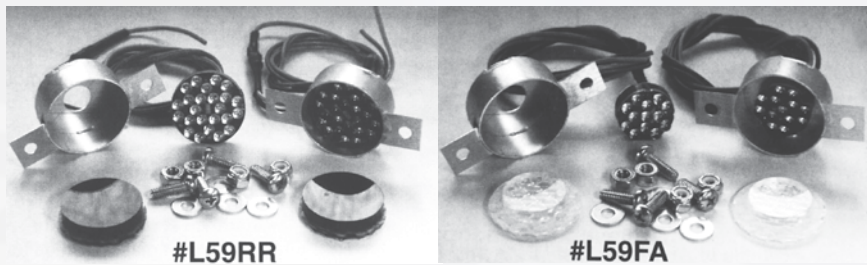

Same as L58B, but two steps better. 3 groups of 15-30-15 provide a 30 LED center 3rd brake light and two 15 LED turn signal/brake lights. Or add our LED Conversion Kits to get taillight and turn/brake or wire them all as one big and bright 3rd brake light.

L58BT each	130.00
----------------------	--------

With the turn signals off, all 60 LED's light up with the brake. If the right turn signal is on, the other 45 LED's are brake light, etc.

Note: These are small lights. More than one pair may be needed for your application.

HOT DOTS! ROUND FLUSH MOUNT LED PARK AND TAILLIGHTS

Bright Round LED clusters fit inside aluminum housings. 1/4" thick build-in, flush mounted red acrylic lenses with prismatic diffusers - can be fit into curved fenders for the seamless look. All have dual intensity for taillights and turn-brake lights. Need only 1" of clearance space. Weld-in or glass-in studs for mounting are included. Quality instructions.

Taillight Hot Dots- Red Lens

1 1/4" diameter red lenses with diffusers! 1 1/4", 24 Red LED's per light.

L59-RR pair	110.00
-----------------------	--------

Taillight Hot Dots- Clear Lens

1 1/4" diameter clear lenses with diffusers! 1 1/4", 24 Red LED's per light.

L59-RCL pair	110.00
------------------------	--------

Small Park Light Hot Dots

1 5/16" diameter clear lenses/diffusers! 13 Amber LED's per light.

L59FA pair	110.00
----------------------	--------

Large Park Light Hot Dots

1 1/4" diameter clear lenses with diffusers! 1 1/4" 24 Amber LED's per light.

L59FALG pair (not shown)	110.00
------------------------------------	--------

These are really bright!

Watson's StreetWorks

CONSOLE PLATE POWER WINDOW SWITCH KIT

Billet 3-wire rocker switches inside an attractive Billet Console Plate that's 2 1/4" wide by 2 1/2" high with a brushed finish. Add distinct styling in Billet to your custom console. 2 switches,

Console Plate, 2 polarity reversing modules, wire leads, connectors and instructions.

L39BCD each (shown) 125.00

Note: These are not plug-in replacements for 5-wire switches. Call if you have any questions. Reversing modules are needed for power windows. Switches without modules will work for air-ride systems with separate up - down solenoids requiring a positive signal. Order:

L39BSX (single) 54.00

L39BDX (double) 93.00

Switches and Console Plate without modules for SPDT applications up to 5 amps max.

L39BCDX each 119.00

OVAL BILLET POWER WINDOW SWITCHES

Billet 3-wire rocker switch sits inside an oval Billet frame. Dual switch kit for center console mounting or for both switches on the driver door only. Dual switch frame is 3 1/8" wide by 1 5/8" high. Adapts directly to positive output frame, no additional relays required! 2 polarity reversing modules, wire leads, and instructions.

L39BOD each 125.00

Note: These are not plug-in replacements for 5-wire switches. Call if you have any questions. Reversing modules are needed for power windows. Switches without modules will work for air-ride systems with separate up - down solenoids requiring a positive signal. Order:

L39BOSX (single) 64.00

L39BODX (double) 119.00

Switches and Console Plate without modules.

L39BFSX (single) 64.00

FLAMED BILLET FRAME POWER WINDOW SWITCHES

Billet 3-wire rocker switch inside a flamed Billet frame that's 4 1/4" wide by 1 5/8" high. Adapts directly to positive output frame, no additional relays required!

Single switch and frame, polarity reversing module, wire leads, and instructions.

L39BFS each 70.00

Note: These are not plug-in replacements for 5-wire switches. Call if you have any questions. Reversing modules are needed for power windows. Switches without modules will work for air-ride systems with separate up - down solenoids requiring a positive signal. Order:

L39BSX (single) 54.00

L39BDX (double) 93.00

Switches and Console Plate without modules.

L39BFSX (single) 64.00

OVAL BILLET 4-SWITCH PANEL

4 of their Billet 3-wire rocker switches mounted in an oval Billet frame that's 4 7/8" wide by 1 5/8" high. Use as a driver door

control for power windows on a 4-door or

as a stand-alone console switch center. Note: This panel is sold without relays or polarity reversing module(s), so be sure to explain your needs our tech staff when you order. AT LEAST ONE ADDITIONAL REVERSING MODULE will be needed when using this panel with other of our Oval Billet Power Window Switches.

L39BO4X each 199.00

RECTANGULAR BILLET ALUMINUM POWER WINDOW SWITCHES

Billet 3-wire rocker switch sits inside a Billet frame that's only 1-1/8" wide by 1-3/4" high. Adapts directly to positive output frame, no additional relays required!

Single switch/frame, polarity reversing module, wire leads, and instructions.

L39BS each 60.00

Dual switch kit for center console mounting or for both switches on the driver door only. Dual switch frame is 2" wide by 1-3/4" high, 2 polarity reversing modules, wire leads, and instructions.

L39BD each 105.00

Triple kit puts dual switches on the driver door and one on the passenger door. Switch and frames, 2 polarity reversing modules, lots of wire, and instructions.

L39BT each 150.00

Note: These are not plug-in replacements for 5-wire switches. Call if you have any questions. Reversing modules are needed for power windows. Switches without modules will work for air-ride systems with separate up - down solenoids requiring a positive signal. Order:

L39BSX (single) 54.00

L39BSX (double) 93.00

ILLUMINATED BILLET 5-WIRE POWER WINDOW SWITCH KITS

Beautiful new Billet 5-wire rocker switch snaps into a rectangular billet frame that's only 1 1/4" wide by 2 5/16" high. The frame mounts with 2 blind studs from behind. Single switch with plug and frame, terminals, wire leads and instructions.

L39-5BS each 80.00

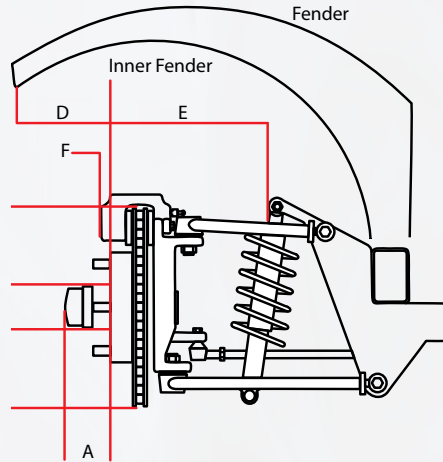

Dual switch kit for center console mounting or for both switches on the driver door only. Two Billet 5-wire rocker switches snap into a dual switch frame that is 2 1/4" wide by 2 5/16" high. The frame mounts with 4 blind studs from behind. 2 switches with plugs and dual frame, terminals, wire leads and instructions.

L39-5BD each 145.00

Triple kit puts dual switches on the driver door and one on the passenger door. 3 switches with plugs, 1 single frame, 1 dual frame, terminals, fuse holder, wire leads, cross-over wiring and instructions.

L39-5BT each (shown) 210.00

Here are some examples of how we measure.

Front Wheel Section

- A- Hub Height
- B- Hub Diameter
- C- Rotor Diameter
- D- Inside Fender to Mounting Surface
- E- First Obstruction on Frame Side to Mounting Surface- Back Space
- F- Area of Caliper Past Mounting Surface

D + E = total distance available for wheel
 Subtract 2" for clearance

How to Measure Wheel Back

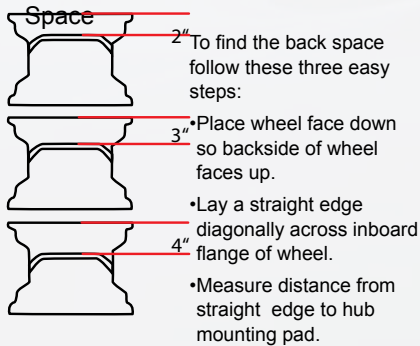

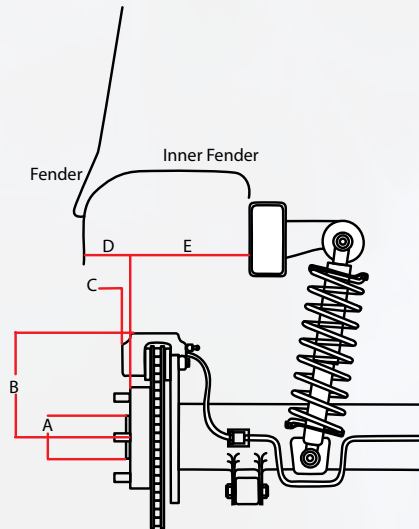

Diagram shows 2", 3", and 4" backspace.

Rear Wheel with Caliper

- A- Hub Height
- B- Hub Diameter
- C- Rotor Diameter
- D- Inside Fender to Mounting Surface
- E- First Obstruction on Frame Side to Mounting Surface - Back Space

D + E = total distance available for wheel
 Subtract 2" for clearance

How to Measure Bolt Patterns

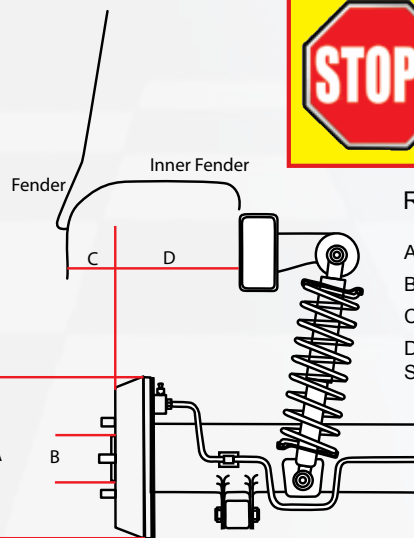

4-Lug
 Measure from the middle of two bolts directly across from each other. This is the same for the 6 and 8 lug patterns as well.

5-Lug
 Measure from the back of one hole to the center of the second hole.

WHEEL VINTIQUES makes high quality wheels! They are **SPECIAL ORDER & NON-RETURNABLE**. Be 100% positive your information is correctly filled out on the **ORDER/CONFIRMATION FORM!!!**

Rear Wheel without Caliper

- A- Drum Diameter
- B- Hub Diameter
- C- Inside Fender to Mounting Surface
- D- First Obstruction on Frame Side to Mounting Surface- Back Space

D + E = total distance available for wheel
 Subtract 2" for clearance

ORDERING INFORMATION:

To Order By Mail:

We honor Personal Checks, Cashier's Checks, Money Orders, Discover, Visa, and MasterCard on any mail order. It is our goal to ship within 48 hours of receipt of your order. If we are out of stock on any item and hold your backorder until the part arrives for shipment. If the backorder extends over 30 days, we will notify you when the part arrives and request that you reorder (The exception to this is if you prepaid the order with a check or money order. In this instance the part will automatically be shipped upon arrival).

To Order By Telephone:

If you have your order ready, with part numbers in hand, please call out Toll Free Order Desk 1-800-354-4040. Our operators will gladly take your order. You can place your order on your **Discover, Visa, and MasterCard**. Again, please feel free to use our convenient Toll Free order lines for placing your order – but you must have your information ready. If you need technical assistance or do not have your part numbers, please call our parts department (405) 631-4400. Our parts team will assist you with any of your needs. We are open Monday thru Friday 8 a.m. to 5 p.m. and Saturday 8 a.m. to 12 p.m. (CST).

Shipping Charges:

All Fed Ex Ground Shipments within the continental United States will be charged according to the S&H chart below. Air shipments will be quoted upon ordering. All orders out of the United States quoted upon ordering. All orders too large to ship Fed Ex or USPS will be shipped Motor Freight. Consult with your salesperson for Motor Freight quotations at the time of placing your order. Heavy or Bulk items will require additional shipping charges. Hawaii, Alaska, Puerto Rico will be shipped Fed Ex 2nd Day Air.

Air Shipping Services:

Next Day Air, Second Day Air, and Third Day Select Shipping Charges are available on any order. Federal Express is currently our primary shipping source. For other shipping options consult with your Salesperson when ordering.

Return Information:

30-Day Return Policy. Inspect your order immediately upon arrival. Be sure you have received the parts you ordered and that they are free of any manufacturing defects. If there is a problem please call us at (405) 631-4400 for instructions. **All returned parts must have a letter of explanation of problem, and a copy of the invoice must accompany merchandise.** If possible, please include a daytime phone number in case we need to contact for further questions. **ALL FREIGHT MUST BE PREPAID.** We cannot accept COD's. If the reasons for the return is due our error, please include receipts of your cost for shipping back to us, so we may reimburse you for the freight. If a refund is requested and the reason of error is NOT due to our negligence a 20% restocking fee will be applied. The restocking fee is not applicable to In-Store credit or exchanges. We will not refund on any wood products, electrical items or special order items. No refunds will be accepted after 30 days from the date of the invoice. **IF YOU NEED ASSISTANCE WITH A RETURN PLEASE CALL OUR PARTS DEPARTMENT AT (405) 631-4400**, so we may assist you. Shipping costs are non-refundable.

Merchandise Damages and/or Shortages:

Inspect your order immediately upon arrival. If you should receive parts that are freight damaged or missing due to a broken box, contact the carrier that delivered the merchandise immediately (i.e. Fed Ex, Post Office, Freight Line etc.) All damaged and/or broken carton merchandise, must be held in the **ORIGINAL** container for inspection by the carrier. If Fed Ex shipped it, contact them for an inspection. If delivered by Motor Freight, count all cartons before signing for delivery and note any discrepancies on the bill of lading with your signature. **DO NOT RETURN DAMAGED MERCHANDISE TO US!!** The delivering carrier is responsible for any damages committed while your parts were in transit. If you should find a shortage in your box not due to broken or damaged delivery you **MUST** notify our parts department at (405) 631-4400 within 72 hours of receipt. We only accept responsibility for shortages reported within a 72-hour grace period. We will do everything possible to see that your claim, and/or shortage is taken care of as fast as possible.

Refused Shipments:

Customers will be responsible for all shipping charges, storage fees and a 20% handling fee on all refused shipments. Merchandise refused that is not defective or damaged is subject to 20% restocking fee.

Prices:

We attempt to maintain all published prices as seen in the catalog, but due to the fact that we buy from hundreds of direct manufacturer, we can not control all product costs. If the supplier goes up, we are forced to raise our prices also. Consequently, our retail prices do change periodically and without notice. Please feel free to call for confirmation on current pricing.

Mailing List:

We maintain a mailing list by our sales history. If you are an active customer, you should be receiving periodic sales fliers and new item updates. The phone number you give us on your initial order will be used as your customer account number. If this number changes or you move, please send us a change of address form or call us so we may keep your current on our mailing list. We do not distribute your address, phone number or E-Mail address to outside sources.

ORDERING INFORMATION:

To Order By Mail:

We honor Personal Checks, Cashier's Checks, Money Orders, Discover, Visa, and MasterCard on any mail order. It is our goal to ship within 48 hours of receipt of your order. If we are out of stock on any item and hold your backorder until the part arrives for shipment. If the backorder extends over 30 days, we will notify you when the part arrives and request that you reorder (The exception to this is if you prepaid the order with a check or money order. In this instance the part will automatically be shipped upon arrival).

To Order By Telephone:

If you have your order ready, with part numbers in hand, please call out Toll Free Order Desk 1-800-354-4040. Our operators will gladly take your order. You can place your order on your **Discover, Visa, and MasterCard**. Again, please feel free to use our convenient Toll Free order lines for placing your order – but you must have your information ready. If you need technical assistance or do not have your part numbers, please call our parts department (405) 631-4400. Our parts team will assist you with any of your needs. We are open Monday thru Friday 8 a.m. to 5 p.m. and Saturday 8 a.m. to 12 p.m. (CST).

Shipping Charges:

All Fed Ex Ground Shipments within the continental United States will be charged according to the S&H chart below. Air shipments will be quoted upon ordering. All orders out of the United States quoted upon ordering. All orders too large to ship Fed Ex or USPS will be shipped Motor Freight. Consult with your salesperson for Motor Freight quotations at the time of placing your order. Heavy or Bulk items will require additional shipping charges. Hawaii, Alaska, Puerto Rico will be shipped Fed Ex 2nd Day Air.

Air Shipping Services:

Next Day Air, Second Day Air, and Third Day Select Shipping Charges are available on any order. Federal Express is currently our primary shipping source. For other shipping options consult with your Salesperson when ordering.

Return Information:

30-Day Return Policy. Inspect your order immediately upon arrival. Be sure you have received the parts you ordered and that they are free of any manufacturing defects. If there is a problem please call us at (405) 631-4400 for instructions. **All returned parts must have a letter of explanation of problem, and a copy of the invoice must accompany merchandise.** If possible, please include a daytime phone number in case we need to contact for further questions. **ALL FREIGHT MUST BE PREPAID.** We cannot accept COD's. If the reasons for the return is due our error, please include receipts of your cost for shipping back to us, so we may reimburse you for the freight. If a refund is requested and the reason of error is NOT due to our negligence a 20% restocking fee will be applied. The restocking fee is not applicable to In-Store credit or exchanges. We will not refund on any wood products, electrical items or special order items. No refunds will be accepted after 30 days from the date of the invoice. **IF YOU NEED ASSISTANCE WITH A RETURN PLEASE CALL OUR PARTS DEPARTMENT AT (405) 631-4400**, so we may assist you. Shipping costs are non-refundable.

Merchandise Damages and/or Shortages:

Inspect your order immediately upon arrival. If you should receive parts that are freight damaged or missing due to a broken box, contact the carrier that delivered the merchandise immediately (i.e. Fed Ex, Post Office, Freight Line etc.) All damaged and/or broken carton merchandise, must be held in the **ORIGINAL** container for inspection by the carrier. If Fed Ex shipped it, contact them for an inspection. If delivered by Motor Freight, count all cartons before signing for delivery and note any discrepancies on the bill of lading with your signature. **DO NOT RETURN DAMAGED MERCHANDISE TO US!!** The delivering carrier is responsible for any damages committed while your parts were in transit. If you should find a shortage in your box not due to broken or damaged delivery you **MUST** notify our parts department at (405) 631-4400 within 72 hours of receipt. We only accept responsibility for shortages reported within a 72-hour grace period. We will do everything possible to see that your claim, and/or shortage is taken care of as fast as possible.

Refused Shipments:

Customers will be responsible for all shipping charges, storage fees and a 20% handling fee on all refused shipments. Merchandise refused that is not defective or damaged is subject to 20% restocking fee.

Prices:

We attempt to maintain all published prices as seen in the catalog, but due to the fact that we buy from hundreds of direct manufacturer, we can not control all product costs. If the supplier goes up, we are forced to raise our prices also. Consequently, our retail prices do change periodically and without notice. Please feel free to call for confirmation on current pricing.

Mailing List:

We maintain a mailing list by our sales history. If you are an active customer, you should be receiving periodic sales fliers and new item updates. The phone number you give us on your initial order will be used as your customer account number. If this number changes or you move, please send us a change of address form or call us so we may keep your current on our mailing list. We do not distribute your address, phone number or E-Mail address to outside sources.

We are open Monday thru Friday 8 a.m. to 5 p.m. and Saturday 8 a.m. to 12 p.m. (CST).

Shipping Charges:

All Fed Ex Ground Shipments within the continental United States will be charged according to the S&H chart below. Air shipments will be quoted upon ordering. All orders out of the United States quoted upon ordering. All orders too large to ship Fed Ex or USPS will be shipped Motor Freight. Consult with your salesperson for Motor Freight quotations at the time of placing your order. Heavy or Bulk items will require additional shipping charges. Hawaii, Alaska, Puerto Rico will be shipped Fed Ex 2nd Day Air.

Air Shipping Services:

Next Day Air, Second Day Air, and Third Day Select Shipping Charges are available on any order. Federal Express is currently our primary shipping source. For other shipping options consult with your Salesperson when ordering.

Return Information:

30-Day Return Policy. Inspect your order immediately upon arrival. Be sure you have received the parts you ordered and that they are free of any manufacturing defects. If there is a problem please call us at (405) 631-4400 for instructions. **All returned parts must have a letter of explanation of problem, and a copy of the invoice must accompany merchandise.** If possible, please include a daytime phone number in case we need to contact for further questions. **ALL FREIGHT MUST BE PREPAID.** We cannot accept COD's. If the reasons for the return is due our error, please include receipts of your cost for shipping back to us, so we may reimburse you for the freight. If a refund is requested and the reason of error is NOT due to our negligence a 20% restocking fee will be applied. The restocking fee is not applicable to In-Store credit or exchanges. We will not refund on any wood products, electrical items or special order items. No refunds will be accepted after 30 days from the date of the invoice. **IF YOU NEED ASSISTANCE WITH A RETURN PLEASE CALL OUR PARTS DEPARTMENT AT (405) 631-4400**, so we may assist you. Shipping costs are non-refundable.

Merchandise Damages and/or Shortages:

Inspect your order immediately upon arrival. If you should receive parts that are freight damaged or missing due to a broken box, contact the carrier that delivered the merchandise immediately (i.e. Fed Ex, Post Office, Freight Line etc.) All damaged and/or broken carton merchandise, must be held in the **ORIGINAL** container for inspection by the carrier. If Fed Ex shipped it, contact them for an inspection. If delivered by Motor Freight, count all cartons before signing for delivery and note any discrepancies on the bill of lading with your signature. **DO NOT RETURN DAMAGED MERCHANDISE TO US!!** The delivering carrier is responsible for any damages committed while your parts were in transit. If you should find a shortage in your box not due to broken or damaged delivery you **MUST** notify our parts department at (405) 631-4400 within 72 hours of receipt. We only accept responsibility for shortages reported within a 72-hour grace period. We will do everything possible to see that your claim, and/or shortage is taken care of as fast as possible.

Refused Shipments:

Customers will be responsible for all shipping charges, storage fees and a 20% handling fee on all refused shipments. Merchandise refused that is not defective or damaged is subject to 20% restocking fee.

Prices:

We attempt to maintain all published prices as seen in the catalog, but due to the fact that we buy from hundreds of direct manufacturer, we can not control all product costs. If the supplier goes up, we are forced to raise our prices also. Consequently, our retail prices do change periodically and without notice. Please feel free to call for confirmation on current pricing.

Mailing List:

We maintain a mailing list by our sales history. If you are an active customer, you should be receiving periodic sales fliers and new item updates. The phone number you give us on your initial order will be used as your customer account number. If this number changes or you move, please send us a change of address form or call us so we may keep your current on our mailing list. We do not distribute your address, phone number or E-Mail address to outside sources.
